Hydropathic Retreat.
DR. J. WEBSTER has recently opened a house on the corner of Indiana and Rush sts., for the reception of patients wishing Hydropathic treatment. As the sultriness of the air is most agreeably modified by the gentle breezes from the adjacent lake, a more healthful and salubrious locality can seldom be found.
In Obstetric Practice, and in those weakened and diseased states of the system, which frequently make life a burden to many of our most useful women, he has had unparalleled success with Water-Cure treatment.
Office hours from 8 to 10 A. M., and from 2 to 4 P. M.

NEW AND VALUABLE DISCOVERY.
Great Improvement in Artificial Teeth.
DR. J. A. KENNICOTT, No. 96 Lake street, having purchased ALLEN'S PATENT IMPROVED METHOD OF SETTING MINERAL TEETH, takes pleasure in offering to his patrons a REAL and SUBSTANTIAL IMPROVEMENT, which only needs to be examined to be appreciated, and unqualifiedly approved. The advantages of this invention are PERFECT CLEANLINESS and freedom from any metallic or other unpleasant taste, great strength, lightness and durability. The teeth are secured to the plate by means of a strong mineral cement, which forms a perfect union of the teeth and plate, and an EXACT IMITATION OF THE NATURAL GUMS, giving a life-like appearance that it is impossible to obtain in any other way. For references, see MEDALS and DIPLOMAS awarded to Dr. K. as *premiums* for the *Best Dental Mechanism,* also, specimens of work at his office, No. 96, corner of Lake and Dearborn streets, near the Tremont House. 1y27

SOMETHING NEW.
A VERY great and decided improvement in the science of Dentistry, at Dr. W. H. KENNICOTT'S Office, need only be seen to be properly appreciated by any one who ever wore artificial teeth. One of the great points gained in this invention, is the entire union or fusion of the plate with the teeth, so that the whole is one entire piece, smooth as a china cup and as easily cleaned, there being no space anywhere for food to find a lodgment, consequently no offensive taste or odor will arise from their use.
Wm. H. Kennicott having obtained Dr. Allen's patent and a full course of instructions from Dr. Taylor, of Cincinnati, is now prepared to offer a real improvement to the public.

WOULD respectfully inform Proprietors, Architects, Builders and the public in general, that he is now prepared to furnish estimates for fitting up Water Pipe in new buildings in a neat and substantial manner.
The following articles can always be found at his establishment: Sheet Lead, Lead Pipe of different sizes, Patent Water Closets, Wash Bowls and Sinks, Hydrants, Lift and Force Pumps, Plunge and Shower Baths, fitted with hot or cold water, together with all articles in the Plumbing line constantly on hand or made to order. jan30

MELLEN & CO.'S
Western Newspaper Subscription, AND ADVERTISING AGENCY.
THE subscribers respectfully tender their services to the public, in the transaction of the above business, and solicit the attention of Merchants and others, to the advantages it offers. We shall keep on file all the best Newspapers published in Illinois, Indiana, Wisconsin, Iowa, Minnesota, Michigan, and Missouri, and the principal papers of Eastern and Southern cities, thereby giving to advertisers the opportunity of seeing and selecting such papers as may be desirable, thereby enabling them to *Advertise Judiciously, Effectively and Safely.*
By this method the advertiser is saved the labor of corresponding with the several papers, the expense of postage, and much time and perplexity in the settlement of bills. Our long connection with the business, and advertising department of the Chicago Daily Tribune and Gem of the Prairie, together with our practicable knowledge of the Printing business, and systematic manner of advertising, enable us to offer superior inducements to both publishers and advertisers. Chicago, August 1, 1852.

J. C. GARLANDS'
Trunk Emporium,
160 LAKE STREET. 160
Cor. La Salle formerly known as Becher's Leather Store,
CHICAGO,..........ILLINOIS.
THE SUBSCRIBER, having leased the above corner store for a Depot and Sale Rooms, for his extensive Manufactory, has now on hand, and is constantly manufacturing the largest and most perfect assortment of TRUNKS, &c., ever offered for sale west of New York city, consisting of Fine Oak Tanned English Sole Leather Trunks; Patent Steel Spring and Solid Rivited Iron Frame Trunks; Centre Tables; a new and improved article of Ladies Dress Trunks; Spring Hat Cases; Packing Trunks and Traveling Bags, of every size and quality; Also, a fine article of
SOLE LEATHER AND BOSTON VALISES.
Together with a great variety of the latest patterns of
CARPET BAGS AND LADIES' SATCHELS,
all of which will be sold at *Greatly Reduced Prices.*
From six years' practical experience in Chicago, exclusively confined to this business, and with constantly increasing facilities, I flatter myself that I can manufacture a better article, in my line, for less money than any other establishment in the western country. Dealers are respectfully solicited to examine the stock, to whom a liberal discount will be made. Ordered work made in the very best manner, by practical mechanics, and warranted to stand. Repairing and lettering promptly attended to.

Premium Trunk Manufactory,
23 Clark St., Second Door North of Lake St. 23
W. & G. WRIGHT respectfully announce to the public of Chicago, that having for eighteen years been engaged exclusively in the manufacture of every description of Trunks, they are prepared to offer the best and most complete stock of the following kinds of Trunks ever offered in Chicago. SOLID SOLE LEATHER TRUNKS AND VALISES, WOOD FRAME FOLIOS of every style and variety, LADIES' DRESS TRUNKS, HAT CASES, PACKING TRUNKS, Boston and Wood Frame Valises and Carpet Bags.
W. & G. Wright would call attention to the fact, that one of their Trunks took the Medal at the late Mechanics' Fair in Chicago, for the best Trunk. As all articles sold by them are manufactured at their own establishment, and under their own inspection, they are warranted to be of the best materials, and most superior workmanship.
W. & G. Wright supply Trunks at Wholesale and Retail; and all orders are executed with the utmost promptness, and at the lowest possible prices. oc4dly

IS constantly enlarging his stock of FURNITURE and UPHOLSTERY, and feeling grateful for past favors solicits a continuance of the patronage of the public. He HAS NOW a full supply of Scarritt's Folding Lounge and Sofa Beds which have for the past three months been in great demand.
He has also a superior Straw Cutter, invented by D. Stiles, Jr., Middletown, Mass., which has been so highly approved of at the principal Fairs in Massachusetts, Connecticut and Rhode Island, as to take the lead of all others, in being well adapted to meet the wants of the farmer and all others engaged in feeding stock. Said Cutters will also be found at E. Hunt's, 79 Lake st. feb4

TO ALL INTERESTED IN PURCHASING
A GENUINE
FIRE PROOF SAFE,
READ THE FOLLOWING:—
New York, February 10, 1853.
Mr. Silas C. Herring:—
Sir—We deem it a duty to hand you a certificate of the fact that the entire contents of the safe bought of you were preserved, uninjured, after remaining twelve hours in the fire which destroyed the building occupied by us, No. 75 Nassau street, on the night of the 3d instant. The books, papers, and money were as perfect as when put in the safe, all the watch movements were in running order, and some of them in motion. J. DUCOMMUN & SON,
Watch Case Makers and Importers.
A great variety of different sized Safes, of the above quality, for sale at the salesroom of the subscribers.

NEW CIGAR AND TOBACCO STORE.
D. W. CORBIN, Wholesale and Retail Dealer in choicest brands of Havana and Domestic Cigars, and all kinds of Tobacco of the best quality, would respectfully inform the inhabitants of Chicago and vicinity, that he has lately opened and fitted up in elegant style, his new Store in the new block, No. 57 CLARK STREET, opposite the Sherman House. The Subscriber will keep constantly on hand a large and well assorted stock of prime Tobacco and Cigars. All orders will be attended to with promptness and dispatch, and the subscriber intends to merit a fair share of the patronage of this flourishing city and country. Please call and test the merits of a fine Cigar, at D. W. CORBIN'S, No. 57 CLARK STREET. ly2dly

Furniture and Chairs.
THE undersigned has leased Store No. 171 Lake street, for the purpose of transacting a Wholesale and Retail FURNITURE and CHAIR business. His warerooms will be completed and filled with a heavy stock in season for the early Spring trade, having now completed and in operation his new and extensive steam Establishment in manufacturing Furniture and Chairs of every variety of style and finish, adapted to city or country trade. Convinced by experience that manufacturing by hand, or on a small scale by imperfect machinery would not enable him to compete with Eastern markets, he has introduced every improvement in labor-saving machinery requisite to despatch, durability and style. The manufacturing is conducted by Messrs. Rugg & Kniblce, who are extensively known as efficient and practical mechanics, well acquainted with the wants of this market and the west generally, they pledge themselves that no articles shall be allowed to leave the Factory which they are not willing to warrant as superior in point of durability, workmanship and finish.
He would respectfully call the attention of the trade, Hotel Keepers and others to his extensive stock, before purchasing elsewhere. mh15dMaily F. H. BOYDEN

THE LONE STAR,
FOR THE SALE OF
STAPLE AND FANCY DRY GOODS
WILL BE OPENED FOR BUSINESS ON WEDNESDAY NEXT, 17th inst., at the New Store, No. 229 LAKE STREET, near the Bridge.
Money saved is as good as money earned.
The Subscriber bearing always in mind the above adage has taken the fine, commodious Store mentioned above, which he *does not have to pay a small fortune yearly for Rent,* the benefit of which shall go to the patrons of the LONE STAR.
The attention of the Ladies is particularly called to the stock of LONG AND SQUARE BROCH AND MERINO SHAWLS—some entire *new style of centres.* Also entire new styles *Wool Shawls,* which were landed at the Custom House in New York within the last three weeks.
I would solicit a call from those Ladies who are in want of Silk Goods, Brocades, Gros de Grane, Fancy and Plain silks, etc. etc.
Dress Goods and Stuffs of every description, *Cheap as the Cheapest.*
The Goods at the *Lone Star* have all been purchased in New York since the *late decline in prices.* I have no old goods to palm off; and the advantage which I have over those who are paying from $1,000 to $2,000 yearly for rent, can be readily seen. I shall sell at a small advance from cost, for *Cash only.*
Ladies and Gentlemen are respectfully invited to call and examine for themselves, and they will find

That all the statements made above,
As strange as they may seem,
Are facts which I will to you prove,
And not an idle dream.
I hope at least to get a call
From all, both near and far;
I'll do my best to please you all,
While you remain at the LONE STAR.

Triumph of Art.
A BEAUTIFUL achievement has just been attained in the art of manufacturing
CARPETS.
producing an entirely new effect, far surpassing that attained in the ordinary quality of Ingrain and Three Ply.
The article produced is a TAPESTRY INGRAIN of superior beauty and elegance, the peculiarity of the invention consisting in the fact that it is parti-colored in the yarn, producing a new and beautiful effect. It has been patented both in this country and Europe, and bids fair to produce a new era in the history of Carpets. Specimens may be seen at the Carpet Rooms of
FRANCIS CLARK, 168 Lake st.,
where can also be found the best assortment in this market, of all the new and beautiful styles of Carpets. au24

NEW YORK ADV'NTS.

FROM S. M. PETTENGILL & CO.'S
ADVERTISING AGENTS,
122 Nassau Street, New York; 10 State, Boston.

Important to Housekeepers.
SOMETHING better & more economical than Soda, Cream Tartar, or any other preparation in existence, for baking. *Durkee's Chemical Yeast, or Baking Powder—For raising* Bread, Biscuit, Fried, Griddle and Johnny Cakes, Puddings, Pot Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c., &c.
This article is one that every Family, Hotel, Boarding House, Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon careful trial, to be the *very thing needed every single day of their existence.*
Its most important advantages over the old sytem, are—
1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast—water only being necessary.
2. No time is required for the dough to *rise* before baking; consequently bread may be made in a few minutes.
3. A cook can always depend upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.
4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.
5. The bread made by fermentation does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tends to produce dyspepsia and its attendant evils.
This article has been thoroughly tested, and is universally liked. When used according to the directions, it is *warranted to suit.*

TO COUNTRY DEALERS,
SILKS AND FANCY DRY GOODS.
NICHOLSON & WRIGHT,
Importers and Jobbers of Silk and Fancy Dry Goods,
HAVING REMOVED FROM 54 CEDAR STREET TO THE NEW MARBLE BUILDING,
93 Liberty Street,
(FOUR DOORS WEST OF BROADWAY,)
WOULD invite the attention of Dealers in distant cities and towns to a very extensive and rich stock of Silk and Fancy Dry Goods, consisting of
RIBBONS, LACES—
EMBROIDERIES—
DRESS TRIMMINGS—
WHITE GOODS, GLOVES—
SILKS, DELAINES—
SHAWLS, PARASOLS—
MILLINERY ARTICLES, &c.—
An examination of our Goods and Prices will, we think, convince Country Dealers that we can offer them fully as advantageous terms as any house in New York—if not better. We pay particular attention to the Auction sales, and if Goods are selling at less price than they can be imported—as is sometimes the case—we shall see that our customers will realize all the benefit accruing from such sales. We are at all times willing to exhibit our stock to buyers, whether they purchase or not; we do not consider it any trouble to show our goods.
☞ Cash and close time purchasers are especially invited to give us a call. From our facilities, we are convinced that we can sell them at such rates as must prove satisfactory.

227 The Empire Clothing Store. 227
E. B. HURD & CO.,
HAVE opened the Store 227 Lake Street, which they are now filling with a new and complete stock of CLOTHING and GENTS. FURNISHING GOODS and which they now offer, wholesale and retail, at such prices as defy all competition.
E. B. HURD & CO. would respectfully intimate that having a large wholesale manufactory in Connecticut, from which they daily send out to all parts of the Union, an immense supply of every description of Clothing, they have facilities peculiar to themselves for supplying the public with a well made article, and of such style and workmanship as will insure the admiration of all who honor them with a call.
COUNTRY MERCHANTS, especially, will find it to their interest to give us a call before either making a purchase in Chicago, or proceeding to any Eastern market. We can sell at New York prices, less insurance freight, and the expense of a journey to that city. Our goods are made by first-rate workmen and at less expense than they can possibly be made for in a new city. As our terms are prompt payment and small profits, none of our customers will have to pay for other people's bad debts.
E. B. Hurd & Co. intend to make their establishment really The Empire Clothing Store, which shall be worthy the patronage of Gentlemen of refined taste, and where the farmer and the mechanic will be able to obtain the cheapest and the best of Clothing.

Merchant's Exchange Clothing
WAREHOUSE.
WE would say to our customers and dealers in Clothing in general, that our stock this Winter will be fully adequate to the wants of the trade, embracing every style and quality of Garments, which we are prepared to offer at Wholesale and Retail, upon as reasonable terms as can be had at the East, being connected with a House in New York city, having buyers of long experience constantly in the market, and being *Practical Tailors* ourselves, thereby doing away with many expenses necessary to others, enables us to get up our goods as well, and at least as low prices as others. Those going East to purchase are invited to call on Wm. Dunn & Co., 125 William street, or we pledge ourselves to sell in Chicago at Eastern prices; the difference in expenses here will fully pay transportation. Dealers will find it to their advantage, as well, to purchase here on account of transportation and frequent delays, as well as keeping up a better assortment of sizes, etc., with a less stock by sorting up frequently through the season.

CHICAGO DAILY TRIBUNE.
The Publishers of [illegible]
1. The first [illegible] a Newspaper. News—accurate, reliable, varied and fresh—is its life-blood. The furnishing its Readers with the latest and best information of such of the manifold changes, incidents and developments, occurring throughout the world, as are of special interest to the people of Chicago and the West, will be the leading characteristic of THE TRIBUNE.
2. The candid and thorough discussion of those principles which underlie all facts, is also an essential of a good public journal. In this department THE TRIBUNE will strive to uphold the Truth and the Right. Established on an independent foundation, it will seek to maintain its position by the fair expression of considerate, yet decided opinions; it will defend whatever it regards as lawful, just and sound, and discountenance all that is false, factious and fraudulent.
3. For the efficient carrying out of its design, THE TRIBUNE is arranged in eight Departments, to each of which a competent and responsible person is wholly devoted. Of these the Commercial Department is under the exclusive charge, as always, of T. A. STEWART, Esq., one of the [illegible] THE TRIBUNE, whose established reputation, throughout the West, as a Commercial Editor, saves the necessity of commendation. The Home Department, which is edited by a Lady, has been established for the sake of making THE TRIBUNE a welcome visitor to the Home Circle, as well as to the counting room and the office.
4. Arrangements are completed, for Correspondence, from New York, Washington, Philadelphia, Baltimore, Boston, Cincinnati, New Orleans, St. Louis, and the Capitals and larger towns of our own and neighboring States. Letters will be received also, during the year, from at least four regular correspondents in Great Britain, France, Italy and Germany. THE TRIBUNE'S corps of Letter Writers has been made up with care, and includes gentlemen of undoubted ability, accomplished education, [illegible] high standing in the country.
5. THE TRIBUNE will support a system of national policy that shall defend our honor abroad and maintain our credit at home. It will advocate a discriminating Protective Tariff; Harbor and River Improvements; the donation of the Public Lands to actual settlers; the solution of agrarian [illegible] foreign Questions by honorable negotiation, unembarrassed by lawless encroachment; direct appeal to the PEOPLE, as responsible, on public questions and public officers; an [illegible] leaving the South to bear the heavy burdens and heavy responsibilities of its peculiar institution, without invitation or interference by the North for its removal, or aid from the general government for its extension.
Its hope of a high destiny for this Land of Freedom is founded on its Faith in Progress as the best Inspirer, in the Past as the best Teacher, in the People as the best Sovereigns, in Whig Principles as the best Policy, in Republicanism as the best System, in Christianity as the best Regenerator, and in THE WEST as the great arena.

Col. Benton's Plan.

In yesterday's Tribune we presented a description of the new route for a Railroad to the Pacific, made up from the documents of Col. Benton, Mr. Fremont and Mr. Antoine Leroux. Their papers were too lengthy to publish in full, or for most of our subscribers to peruse. Our summary brings the subject within the limits of our space, and the reader's time. To-day we publish Col. Benton's plan for building the road, with a few extracts from his descriptions of places on the route.

The noticeable fact is made prominent by this document, that a leading Democrat Col. Benton, adopts a leading Whig principle, to-wit, that great national public improvements should be undertaken and executed by the National Government. He presses this point with an energy worthy of one upon whom the mantle of Henry Clay had fallen, and we are almost ready to say with a double portion of the spirit of the departed Apostle of Internal Improvements.—He denounces in strong nervous language the giving out of the construction of this road to private companies. The Government, the great instrument of the PEOPLE, must do the work in behalf of the people. Let the Government build the road, he says, and then let it out to the lowest bidder, who shall agree to carry passengers and freight at a rate determined upon by the Government. To this plan there are no doubt objections. But the alternative is not between one plan which has objections, and another which has none; but between one which has objections, and the not having the road built at all. Without discussing at present the comparative advantages of its construction by Government or by individuals, we venture to say, that if the road is built at all, it will be done virtually if not directly by Government. The whole subject is one of grand and absorbing interest. We shall have occasion to refer to it again.

The Ex-President.

MILLARD FILLMORE.—We want to see Millard Fillmore—the man who, with characteristic modesty, attributes all the glory of his administration to "the wisdom, harmony, fidelity and ability of his associates"—the gentleman whom the ladies call handsome, and becoming the Chair with exceeding eclat—the personage whom many will delight to honor with their supreme suffrages in 1856.

The people of Louisville will welcome the late President to their city, and give him a reception worthy of his reputation. His southern tour will be one triumphal procession from Washington around to Buffalo. The inhabitants of this Western Valley will not be outdone in their expressions and exhibitions of admiration, by any attentions which New Yorkers paid him and his councilors at the opening celebration of their great railroad in the spring of fifty-one.

May all the members of his Cabinet accompany himself and family, in the tour which Mr. Webster once attempted, but failed to accomplish owing to declining health.—*Louisville Courier.*

We of Chicago want to see Millard Fillmore too. All parties would unite in giving him a reception worthy of our generous and hospitable people. Honest, upright, and patriotic, respected by the country for the excellence of his administration, and warmly regarded for his private virtues, the city of Chicago will not be among the last to offer him a welcome of the heartiest kind.

P. S.—Since writing the above we have had the pleasure of affixing our "autograph" to an invitation to Mr. Fillmore, to visit this city, which is in circulation. It already showed a good array of signatures from prominent men of all parties. May success crown the happy movement, and an affirmative response come from the ex-President.

The Orleans Fortune.

It appears, says the Philadelphia Bulletin, that the nett proceeds of the Orleans property, now that the sales have been perfected, is, in round numbers, thirty-seven millions of francs. This will leave each of the children of Louis Phillipe worth about one million of dollars apiece. The grand-children will, of course divide their deceased parent's share. Consequently, the young Count of Paris, who would now be King of the French, if the Orleans dynasty had continued, will receive but half a million, his younger brother taking the other half. Circumstances arising out of the will of his aunt, Madame Adelaide, may, it is said, deprive him even of this half a million, and leave him entirely penniless. Facts like these strikingly exemplify the mutability of fortune, if not the retributions of Providence, nay even the visiting of the sins of the father on the children. The Orleans family, for nearly a century, plotted to dethrone the Bourbons; and lo! that family has now ceased even to be princes of the blood royal of France. Louis Phillippe, during the whole of a long life, schemed to increase a fortune, which was already the most enormous in Europe, and indeed appeared to live only to increase his wealth and establish his dynasty; yet, even in the lifetime of the veteran miser and intriguer, he beheld himself an exile, and saw his fortune threatened with that comparative extirpation, which has already overtaken it. Surely these things teach a lesson, and are of deeper meaning, probably, than most men think.

Prospects of Fruit.

The winter has been favorable for good prospects of fruit, if no late nipping frost comes, the tender germs will have a good season.

We have just examined the peach buds at different parts of the country, and find them to be in almost every case, green and vigorous. The apple buds are not sufficiently developed to judge of their condition, but we found those, having orchards, looking at them with confidence. The frost is nearly out of the ground, and the farmers may be plowing in a week.

We trust that a good season is before them. If they prosper, we all prosper.

St. Patrick's Day at Detroit.

The great festival of Ireland and the Irish, the anniversary of the natal day of Ireland's patron Saint, has been very generally observed through our country, and with much spirit. In the cities, military companies and civic societies have joined in the festivities. In New York the procession was very imposing, and attracted much attention. It was more than a mile in length, and occupied nearly an hour in passing in review before the Mayor and city authorities.

In Detroit the festivities of the day were brilliantly closed with a supper given by the Biddle Guards at the Biddle House. The Detroit papers speak of the table as elegant and luxurious, and ahead of any thing of the kind ever produced in that city; and for all the arrangements, much praise is awarded to the Messrs. Dibble, the liberal and courteous proprietors. The toasts and speeches were spirited, as they could hardly fail to be, coming from the enthusiastic and eloquent Irishmen. We annex two of the toasts:

The American Union—May neither the bleak breeze of the North, nor the hot hurricane of the south, ever bring the ship on her beams end; but, with the good wishes of the world to fill her sails, and her freightage the seeds of freedom, may she circumnavigate the globe.

Tolerance of Country and Creeds—The great mission which the genius of the patriots of the American revolution destined their country to fill in the brotherhood of nations can alone be consummated by raising the portals of the Constitution to the oppressed of the old world, irrespective of country or creed.

HANDSOME SUBSCRIPTION.—The citizens of Galesburgh, in this State, have subscribed $250,000 to railroads, being $250 for every inhabitant.

Catholic Education in Illinois—the Beginning of the End.

Such is the heading of the following editorial which appears in the last number of the Tablet, a Catholic paper published in this city:

While the thoughts and efforts of our fellow-citizens of the City of God throughout the country—and no where more zealously and effectually than in the neighboring diocese of Michigan—are occupied with the momentous subject of Catholic education, and while they are protesting in the face of the brow-beating and menaces of the mob, and the gross misrepresentations and obloquy of infidels and seducers, against the injustice of the State school taxation, it will not be deemed impertinent in us, we trust, to pen a short editorial homily on the subject of education, for the benefit of our readers and fellow Catholics in the Prairie Diocese. It is a question which concerns us, and our children, no less immediately and vitally than it does our brethren in the same faith and hope elsewhere; it is one which must before long come up among us for discussion, and if need be peaceful action in vindication of our rights; and provided that action be calm, deliberate, intelligent, resolute and in the fear of God, it cannot, we are persuaded, take place too soon for the interests of religion, the welfare of the coming generation, and the promotion of clear and equal justice in the commonwealth.

But there is a question preliminary to and to some extent independent of that of the fair distribution of the proceeds of the school fund, or the abolition of that fund, which we fear is not yet practically settled among ourselves. Or rather there are two questions of parental responsibility and duty, the general settlement of which should in our opinion be antecedent to, as in fact it has in all cases that have as yet arisen, actually preceded any concerted movement against the State school system. Parents must first come to feel the danger of the godless schools so profoundly as to forego with alacrity all the apparent advantages they afford and to dream no more of consigning their offspring to these nurseries of heathenism, vice, and crime, than they would of casting their children into some Ganges, or beneath some car of Juggernaut, or immolating them to some grim and bloody Moloch, or making them over soul and body, for time and eternity, to the devil. And next, and as the proper consequence of this right Catholic feeling, they must feel it a duty paramount to every other parental obligation, to provide a sound and adequate Catholic education for their offspring; an education which shall principally respect faith and morals, but which at the same time shall fit its subjects for intellectual contact with their fellow-men in the sphere of life they may be called to occupy. They must feel that not more clamorously and imperiously does the voice of nature proclaim to parents the duty of providing for the physical sustenance of their children, than do all the higher spiritual instincts of Christianity, and all the laws and ordinances of God and the Church, demand that they be educated morally, religiously, for God their last end, and for a final inheritance among the holy in heaven.

We may return in a future article to the discussion of this latter point of our subject; but at present we have to do with the question whether a Catholic parent can permit his child to receive the State school instruction without becoming accessory to, if not the very principal in spiritual murder. It may be that there are Catholics—we fear there are—here and elsewhere—who have not settled this question satisfactorily to themselves; or who, carried away by a miserable parental ambition that would sooner expose children to the most certain loss of faith, than sacrifice one iota of their earthly prospects, are balancing the chances of a respectable estate for their offspring in future life, against the probabilities of unending misery beyond the grave. If these remarks should arrest the attention of any such, we beg that those of the former class will take the proper steps to come to a decision in the premises by consulting their pastor or some other ecclesiastical authority, and that those of the latter class will cease to call themselves by so ridiculous a misnomer as that of Catholics and Christian parents, and will style themselves, what they really are, heathens, minus all the natural virtues and all the religious instincts which the heathens possess.

If any Catholic hitherto ignorant of duty in the matter, be desirous to know whether he can with a good conscience patronize infidel schools, he need only say one word to his pastor, and he will be informed that the voice of Peter has been heard again and again, and in thunder tones, condemning, denouncing and anathematising the whole scheme of mixed or godless education, and its fautors and abettors. There is no mistake about this. The trumpet of the Vatican gives no uncertain sounds, and the Prince of the Apostles speaks with no double, stammering tongue.—Peter has spoken; and that voice of solicitude, vigilance and authority, has flown across the loud sounding waves of seas and oceans, and been echoed heartily by the assembled hierarchy of the United States, as well as by the Bishops individually speaking from the pulpit and through the press. Catholic Bishops, pastors, journalists, writing with the general approbation of Bishops, have agitated the question from one end of the land to the other, until now there is hardly an excuse for ignorance on the subject. If your son or your daughter is attending a State School, you may be as certain that you are violating your duty as a Catholic parent, and conducing to the everlasting anguish and despair of your child, as if you could take your oath of it! You ought not to be able to rest an instant, to bargain, labor, recreate, eat, drink, sleep with common comfort, until you have removed your child from that proximate occasion of spiritual ruin in which, perhaps ignorantly, perhaps thoughtlessly, you have placed him. Do you wish him to be a reputable, thriving member of society; a comfort and a prop to your old age; an honor to your name; but above all, a Catholic man, and an heir of heaven? Take him away from that school. Perhaps he has been too long there already.—Perhaps he has already contracted habits of vice, or infidel principles, which he will carry to his grave, and into the endless world beyond. Take him away. Let him rather never know how to write his name, or spell his way through the plainest paragraph of a newspaper, or perform the simplest calculation, than become the bound and chained slave of Satan, than rise up at the last dread day of account to curse you in all the unavailing repentance and bitterness of final despair. Take him away, if you do not wish your bed of death to be tormented with the spectre of a soul which God has given you as a sacred trust, surrendered to the great enemy of mankind. Take him away, and let him be a boor, a hewer of wood and drawer of water; let him incur the scorn of an enlightened age; let him be accounted by lettered infidels and heathens only an ignorant Papist, rather than incur the anger of his God and the loss of his soul. Take him away, let what will be the consequence.

The Albany State Register says that a member of the firm of Harper & Co., N. York, has taken charge of the business department of the New York *Times*, as a partner.

This is not strictly true. A son of Mr. Fletcher Harper, one of the firm of Harper Brothers, has purchased one-third interest in the *Times*, and takes charge of the business department.

The first shipment of Lead that has been made for a long time, was made from St. Louis on the 15th, being 700 pigs, to merchants of Cincinnati.

RUM AND ITS EFFECTS.—The New York Tribune of the 18th, publishes a table of the licensed and anti-licensed liquor establishments in that city, from which we find there are licensed 5,724, not licensed 851—total 6,575—of these 5,166 are open on Sunday. Of crime there is another table, made out for the last seven years, giving a grand total of arrests from July 1, 1845, to December 31, 1852, of 216,909. It may safely be said that more than *seventy-five* per cent. of this crime is chargeable to Rum.

We see it stated that B. F. FIFIELD, Esq., an old merchant of Monroe, Michigan, has been appointed by the Michigan Southern and Northern Indiana Railroad companies as their agent to transact their business at St. Louis. We congratulate the company in securing the services of such a worthy and experienced business man for that important point.

SOUTHERN INTERNAL IMPROVEMENTS.—The Savannah Republican thus discourses of what the people of Savannah have been doing, in the way of internal improvements:—

"They contributed three millions of dollars to the Central Road; sixty thousand dollars to the South-Western Railroad; five hundred thousand to the Augusta and Waynesboro' Road; sixty thousand dollars to the Milledgeville and Eatonton Roads; one hundred thousand dollars to the Opelika Road; endorsed Muscogee Railroad bonds for seventy-five thousand dollars; and paid towards the State Road in the way of taxes as much as the whole of South-Western Georgia and the Cherokee country together. In addition to this they have contributed all east four hundred and fifty thousand dollars for steamships and steamboats; one hundred thousand dollars for a canal connecting the Savannah and Ogechee rivers, and other considerable sums for their shipping interest. They have built gas works at a cost of over one hundred thousand dollars and are now erecting water works which are to cost at least two hundred and fifty thousand dollars."

The New York *Tribune* says that it has been suggested that a World's Temperance Convention be held in that city at some time during the approaching World's Fair—say in August next. It could be held at no place where it would do more good.

Railroad to the Pacific.

Col. Benton's Letter—His Plan for its Construction.

Col. Benton proceeds to say:

The letter of Col. Fremont and the statement of Mr. Leroux establish the facts which are necessary to give the Central route a place in the public mind, and to entitle it to an examination under the act of Congress; and in the meantime to satisfy all inquiries that this great work is not only practicable but easy, and on the exact line which every national consideration would require it to be upon, and with every advantage of facile construction and universal use. Central to the Union and embracing the business centres of the Atlantic and Pacific, and the Mississippi valley States—on a straight line with San Francisco and St. Louis, and connecting at this latter point with the concentrated steam boat navigation of the great west, and with the entire railroad system from the Mississippi to the Atlantic—straight and smooth—not a mountain to be climbed, a river or swamp to be crossed, a hill to be tunnelled—wood, water, and soil for continuous settlement—coal known to be on many points of the line—the whole traversible in winter, and all south of 39, 38, and 37 degrees: such is the character of the Central route which now claims a share of the public attention and of the Congress appropriation. I shall ask for it that justice, and that it may be examined by some practical man whom I can commend, and who will have a stomach to the work, and do it without talk or delay.

Regarding it as certain that the road is to be made, I now add some observations upon its character and construction; believing that erroneous ideas prevail upon these points, which the public good requires to be corrected. I am opposed to all schemes of making a job of the work—against mixing public and private interests—against furnishing the means of making the road to jobbers, and then letting them own it, and charge the people double upon condition of carrying for the federal government free. I hold that it should be made by the United States, *so far as their territory extends*, (which would be almost the whole distance on the Central route,) leaving the two ends, where it would go through States, to the operation of state laws and state authority. This would be from the Missouri state line at the mouth of the Kansas, to a point on the California state line, opposite the end of the Sierra Nevada at Walker's Pass—a distance of 21½ degrees of longitude, equal to about 1200 miles, (56 miles to a degree in that latitude,) with a southern deflection, as it went west, of three and a half degrees. This would be the main body of the work, leaving the two ends to roads to be made under state authority, and which are already projected, and in some degree commenced both in California and Missouri.—In the meantime, and as a permanent help and resource at each end of the road, there is now steamboat transportation of several hundred miles at each end—from San Francisco half way up the San Joaquin, or more; from St. Louis to the mouth of the Kansas, and up it (as soon as the new territory is established) several hundred miles further. Stages also, and all the usual land conveyances would be at each end of the national territorial road.

My idea is, that the road should be built by the United States by the creation of a stock, hypothecated upon the public lands, and payable at a fixed period at the federal treasury; and that an adequate force should be put upon it to do the work at once. We think nothing of levying an army of fifty or a hundred thousand men for a war; here is an object of more moment to the United States, and to the WORLD, than many wars; and I should be in favor of seeing an army of laborers employed upon it at once, and the work done in seven years, instead of bidding at it for a lifetime. And why not? We can have the money and the men; and on a line of twelve hundred miles there would be room for fifty thousand men to work, without elbowing each other. It would only be forty men to the mile. The pre-emption system would give the money and the settlers—the right kind of settlers—men who would defend themselves from Indians, and raise provisions for the supply of the road, and occupy it on both sides, and from one end to the other, the first season they were allowed to do so. The Indian title should be extinguished on a breadth of fifty to one hundred miles, and a mile reserved for the different tracks of railroads, and for a common road, and for telegraphic lines. It is a work for posterity, and for three continents; and we should elevate ourself to the grandeur of the occasion. The main street in the city which Alexander the Great founded to supersede Tyre, in the East India trade, was five miles long and a thousand feet wide, with a colonnaded and covered footway of one hundred feet on each side. They were men of ample ideas in those times, and still it was not the age that built the pyramids. "From the summit of those pyramids," said the conqueror of the Mamelukes, "forty centuries look down upon us." The time will come when forty centuries may look back upon this road; and they should not be left to repine at the improvidence which would dwindle it to the petty calculations of jobbers, corporators and speculators.

I repeat: I deem all schemes of making this road by a mixture of public and private means; giving lands or money to companies to make it, and then let them own it; conveying for the United States gratis, and doubling upon the people to make it up; getting, in addition to their other profits, interest upon the cost of construction, and which cost was defrayed by the United States; and all this crowned with a monopoly of the road; I deem all such schemes to be fundamentally unwise, unjust to the community, impolitic, and vicious. I hold that the United States should build the road and the fixtures, and let out the use of it for periods of seven or ten years to contractors, who will carry all freight, public and private, and all passengers, individual and governmental, at the same rate—the lowest responsible bidder to take the contract, and furnish his own cars and run them; and if under bid, at the end of his time, or superceded, the successor to take all his stock at a valuation.

It is an illusion and a cheat, to suppose that contractors will carry for the United States gratis. They will get their pay somewhere, and ought. And the fair way, and the only intelligible way, and the only way for each party to know what they are about, is for the United States to pay like an individual for all that is done for it. It is the only way to save the people from being oppressed and plundered. Besides, what is the government—our government—but the people? Why rob one pocket to put in the other? Why rob individuals in detail, to give to the community as a government, especially when it is very certain that the individuals doubly charged will never get back any part of their money? The United States pay their ocean steamers for all they carry, and that enormously, and to the establishment of oppressive monopolies; why not pay their land steamers fairly and equitably, instead of throwing the burden upon the traveling and the business community? This road is to be a long one, and intended for universal use, and travel and freight upon it should be made as cheap as possible. Besides our own trade, and our travel, the trade and travel of Europe with Asia should go upon it. A free road—that is to say, a road which, like the ocean or a river, charges nothing for its use—is the first great step towards cheap transportation; and for the government to pay like individuals is the second and completing step to that cheapness.

I now add some notices on the line of country over which this route would pass, with the view of showing the facility of making the road and the capabilities of the country for continuous, populous and powerful settlements along it.

1. THE KANZAS RIVER.—Its mouth is in lat. 39, lon. 94½, elevation of the country 700 feet above the level of the Gulf of Mexico; its head is in lat. 39, lon. 103, elevation about 4,000 feet, and its *course*, (the Smoky Hill fork) nearly straight, and skirting the latitude of 39 all the way. It has four forks, all close together, and parallel to each other. It is without falls, and its valley, if that can be called valley which is nearly on a level with the prairies on each side, is fertile, grassy, and wooded. The two main forks, the Smoky Hill and Republican, (where the United States is now establishing a fort,) are in latitude 39 degrees, 8 minutes, longitude 96 degrees, 24 minutes, elevation 926 feet above the Gulf of Mexico.

5. THE PASS COO-CHA-TOPE, OR EL PUERTO.—Its latitude is believed to be near 39, longitude about 107½, elevation hardly less than 7,000 ft. It is a continuation of the St. Louis Valley, narrowed down for eight miles, level, and no obstruction but a dense forest of large pines. Several trails lead through it, and many from it towards the west. The first western water is the *Rio Compadre*, a branch of the Grand River, or east fork of the Great Colorado. From what Leroux tells me, the whole breadth of eight miles is good for a road, and he himself never followed any particular trail on going through it. It is a magnificent pass, worthy to be called El Puerto, (the Gate,) and worthy to open the door from the east to the great western slope of the North American Continent, and in the right place, and accompanied by all advantages.

From this pass to the mouth of the Kanzas the face of the country is an inclined plane, level to the eye, but rising under the barometer—the country broad and open, and traversable anywhere. The coal fields of Missouri are known to extend high up. Fremont says it is ready for the operative engineer to go and lay down the road.

8. WALKER'S PASS.—This is the south end of the Sierra Nevada, in lat. 35 1-2, and lon. 118 1-2, and opens into the head of the beautiful valley of San Joaquin; and certainly, short of paradise, there is nothing more sweet and beautiful than the entry into that valley at this pass. Fremont thus describes it as first seen by him the 14th of April, 1845: "One might travel the world over without finding a valley more fresh and verdant—more floral and sylvan—more alive with birds and animals—more bounteously watered, than we had left in the San Joaquin. The air was filled with perfume as if we were entering a highly cultivated country: and instead of green, our pathway and the mountain side was covered with yellow flowers, which here was the prevailing color. Gooseberries were nearly ripe. We were in the midst of an advanced spring."

Col. Benton gives accounts of other points, of the valley of the Upper Colorado, of Las Vegas de Santa Clara, &c., for the elaborate geographical descriptions of which we have no room, as they are not an intrinsic part of the plan for the Railroad.

Mr. Benton closes with the following impressive epitome of this grandly gigantic scheme:

I have to regret that there was no appropriation for the construction of a common road from Missouri to California at this session. I do not mean to regret the loss of a proposition to give land to a company to make and protect such a road: on the contrary, I rejoice at the loss of that proposition. If it had passed it would of become the prey of jobbers, and would of ended in cheat, oppression, fraud and monopoly. The way to make the common road is for the government to do it by an appropriation of money, and leave its support and protection to the working people who would settle upon it under the pre-emption system. This common road is now a want and a necessity for our California and Oregon emigration. Forty or fifty thousand go annually from the frontiers of Missouri to these territories, traveling without a tree blazed, or a sign-post put up by the federal government—exposed to every species of suffering and danger, and now actually marking out the whole way by the graves of the dead. The federal government pays millions for ocean steamers to England, France, Germany, Panama—millions for the protection of foreign commerce upon every sea—keeps a squadron upon the coast of Africa for the protection of the negroes from kidnappers; but it does nothing for a common road upon its own territory, from the Mississippi to the Pacific—leaves its citizens to grope their way through the wilderness, guided by the graves of their predecessors, and adding to the number by their own. I will try and do something for this common road next year, and have stages, and horse-mails, and telegraph lines put upon it for use at once, while building the railroad, to which it would be a great help, for they would run together.

In view of the magnitude of this work,—in view of our dominion over the public land from Missouri to California—in view of the immensity of travel and business upon it, great at the start, and to increase for a longer time than the pyramids have stood—I propose to have the plan of this road, or rather systems of roads, on a scale commensurate to its future destiny, be that as great as it may. I propose to reserve a tract of a mile wide for all sorts of roads, rail and Macadamized, and a plain old English road, such as we have been accustomed to all our lives, on which the farmer in his wagon, or on his horse, and driving his cattle, may go without tax or fear, with none to run over him, or make him jump out of the way under the penalty of being crushed. We shall want tracks for many railways, necessary in future time, and all unconnected and independent of each other. No monopolies on such a mighty line of travel and transportation. Two margins of an hundred feet each should be reserved for independent and rival telegraphic lines.

I have said the public lands on the line of the road will build it. Ten or twelve miles on each side will build it, on the pre-emption principle, $1,25 an acre, and the meritorious settlers upon that principle will be the guard to protect it, the hands to help to make it, and the cultivators to help furnish supplies to the laborers. When done it should be free, that is the tolls upon it—a road of that length will not bear tolls, except slight to keep it in repair—a transit duty on *foreign* commerce, a slight charge, such as all nations exact from foreign commerce traversing its territory—would be the proper source for the repairs which would become necessary; and thus Europe would indemnify us for the use of the road.

Citizens: It is thirty years since I first began to write and to speak on this subject of American and Asiatic communications, and in favor of a "*North American Road to India*;" and then declared, with the confidence which belongs to conviction founded on evidence, that the road would be made "*immediately if aided by the federal government, eventually by the progress of events and the force of public opinion even without that aid.*" The time has come for the fulfilment of that confident prediction. Events have advanced beyond my foresight. Not only Oregon, but all California is ours. We hold seventeen degrees of latitude on the western coast of North America, and have a state and a territory there—great American communities, where the idea was ridiculed when I first came to Congress.

Public opinion is now declared—has become universal—and is triumphant. Congress is beginning to move under its stimulus; politicians are putting down their shoulders to the wheel. But what is more than Congress and the politicians, is the PEOPLE and the BUSINESS POWER of the Union. Both these great springs of action are for the road, and not in the west alone, but out to the Atlantic shore; and thus a sense of interest combines with national consideration in stimulating its construction.

Behold the extended and ramified system of railways from the Mississippi to the Atlantic! What is it but an extended fan! the top on the Atlantic coast, the spokes converging to St. Louis! and the road to San Francisco the handle to that fan, in the extension of which every western and every Atlantic road would find its own participation in the splendid commerce of western America and eastern Asia.

THOMAS H. BENTON.

WASHINGTON, March 4th, 1853.

Rail Road Items.

The road leading from Steubenville, Ohio, to Columbus, is making rapid strides towards completion. The lines are located and let from Steubenville to Newark, and will be completed to Coshocton, 79 miles, this year, and perhaps to Newark. The whole distance is 148 miles, as follows: Steubenville to Urichsville, 47 miles; Coshocton, 32 miles; Newark, 35 miles; to Columbus, 34.

The Pittsburgh and Steubenville Railroad Company are now building a road between these two ports, which will be completed early next year. A side track will be built this fall, eight miles to Cadiz—the shire town of the rich county of Harrison.

ALLEGANY VALLEY RAILROAD.—The entire line of this road to the N. Y. State line, has been let to D. Leach & Co., and the Chamberlains, of Ohio. The route from Pittsburg to Kittanning is to be located on the east side of the Allegany. The distance is 40 miles, and is to be completed to that point about the first of August, 1854.—The Pittsburg Post, from which we derive the above facts, also states that the guage of the road has been definitely fixed at six feet—the one desired by the several roads from Buffalo, Attica, Rochester, and Corning. The ceremony of breaking ground for this road took place to-day at Lawrenceville, near Pittsburg. The Mayor, City Council, and a large number of citizens were present.

BALTIMORE AND OHIO RAILROAD.—It seems that there is a charter for a bridge over the Ohio at Moundsville or Graves Creek, twelve miles below Wheeling, and at the point where the Baltimore and Ohio Railroad strikes the river. Great exertions are making to obtain the funds necessary to build it, and an application has been made to the Legislature of Virginia for a law authorizing counties and other corporations to subscribe.

GODERICH RAILWAY, CANADA.—The Signal reports that Railway surveys have been completed at that end of the line, and that Mr. Gooding starts immediately to purchase the right of way.

The workmen on the eastern section of the Great Western road, who had struck for higher wages, have resumed their employment.

The Chief Engineer of the Northern Railroad recommends the Hen and Chickens Harbor as the terminus of the line.

The people of Amherstburg wish to connect by railway with the Great Western where it is intersected by the Galt Branch.

NEW BRUNSWICK RAILWAY.—Mr. Jackson's Engineers have been engaged during the winter in exploring the Railway route from River du Loup to Madawaska; and their report is that few impediments of any consequence exist along the whole line.

THE ROCK RIVER VALLEY ROAD.—The Milwaukee News asserts that the Valley Company has failed, in connection with the Connecticut and Tennessee Banks. This is wholly unfounded.—Not a contractor, or a man upon the road, has stopped work, and there is no likelihood that either will. At least two thousand men are working between Fond du Lac and Chicago, and the road is progressing with vigor and speed.—*Janesville Gaz.*

James M. Dick, of Buffalo, has obtained a patent for a new railroad switch, which is intended to prevent the possibility of a train running off the track by the careless leaving off the switch, and it dispenses with the attendance of a man to shut switches.

Messrs. Nathan Appleton, Wm. Sturgis, Samuel Appleton, Abbott Lawrence, and John P. Cushing, have each subscribed $1000 towards the erection of a building for the use of the Boston Mercantile Library Association. A large number of merchants have also subscribed from $100 to $500 each, towards the same object, and a handsome and convenient building, for the use of the Association, will probably soon be erected.

Texas.

A letter to the Journal of Commerce, under the last date, contains some items of interest.—He says:

"Everything wears the most cheering aspect. Much planting has already been done. In the Southern extremity of the State, corn is up and growing finely. Cotton is being planted. Emigration continues to flow in with undiminished rapidity. The monetary condition of the country is sound and flourishing. Churches and schools are fast multiplying. A Presbyterian church is being built at Brownsville, Rio Grande. Fifteen thousand dollars have been secured to erect an educational edifice at Houston. The Harrisburg and Brazos Railroad is progressing finely—so is that from Houston to the Red River. A telegraphic line from Shreveport, La., to Houston and Galveston, is being agitated. It is in contemplation soon to add some half dozen to the forty-seven newspapers now published in Texas.

The sugar crop of Texas has proved to be a most abundant one.

Ex-Governor Wood, of Polk County, has realized, this year, ninety bushels of corn to the acre, on one hundred acres of land. Is Texas a corn country?

Some of the Division of the Sons of Temperance, and several of the leading newspapers of the State, have taken ground in favor of the Maine Liquor Law; also a large prohibition of the traffic in intoxicating liquors.

The Texas Planter, at Brazoria, of only a four months' existence, has over one thousand subscribers.

Book sellers are rapidly multiplying in Texas. The newspapers of the Star State are manifesting more than ordinary interest on the subject of common school education. That excellent series of school books known as the "Eclectic," including McGuffey's readers, &c., are being adopted as the uniform series for all the schools of the State.

The N. Y. *Herald* says that the recent trip of the caloric ship has established the partial success of the new principle, at the same time that it has suggested some important improvements, the introduction of which, it is expected, will materially augment her rate of speed. Her appearance in the Thames will create a sensation among the Britishers.

The editor of the *Boston Post*, Charles Gordon Greene, Esq., a worthy and witty gentleman, pockets $20,000 by the election of Gen. Pierce. He falls heir to the post of Naval Officer of the port of Boston. The office is a sinecure, and worth $5,000 per annum.

SAGACITY OF A DOG.—Many remarkable anecdotes are on record relative to the sagacity and fidelity of the canine race, and as the following fact has not been in print, we deem it worthy of being recorded. The late Edward Satterthwaite, grandfather of Thomas Rogerson, Esq., of Liverpool, and Ballamillaghyn, Isle of Man, who died some years ago at Colthouse, near Hawkshead, soon after his marriage, resided near the Low Wood Inn, on the borders of Windermere Lake. He left home early one morning accompanied by his shepherd's dog, to look after some sheep on the mountains, near Rydal, about four miles distant, and discovering two at the bottom of a precipice between two rocks, he descended, with the view of extricating them, but when he got to the bottom he could neither assist them nor get up himself, and there he was confined until midnight. The faithful dog remained at the top of the precipice watching his master, but at nightfall he proceeded home scratching the door, and was let in by his mistress, who expressed her surprise at the barking of the dog and non-arrival of her husband. She had no sooner sat down than the dog ran barking towards her, and then went to the door; but as she did not follow, the dog ran to her again, seized her apron, and endevored to pull her to the door, which circumstances caused her to suppose some accident had befallen her husband. She immediately called up the servant man, and told him she was sure, from the strange conduct of the dog, that something must have happened to his master. She told the man to take a lantern and some ropes and follow the dog, taking care to get assistance at Ambleside, which he did. No sooner had the man opened the door than the dog bounded out, leaped up at him, barked and ran forward as if to hasten the man's speed. The faithful dog led the man and his companions to the prison of his master. The ropes were instantly lowered, and the shepherd was then providentially and quietly released, through the instrumentality of a dog, from his perilous situation. The sheep were hoisted up with the ropes.—*N. Y. Sun.*

EFFECTS OF CLOTHING ON THE HUMAN SKIN.—The London Lancet presents some excellent ideas on the subject of clothing. Let a person in bed be covered with sufficient blankets to promote perspiration, and let these blankets be covered with an oil or India-rubber cloth, or other impervious fabric; in the morning the blankets will be dry, but the under surface of the India-rubber cloth will be quite wet. The blankets, by their dryness, show that the exhalations of the body pass through them and would pass to the surrounding air, had they not been intercepted by the impervious outer covering. Thus it is inevitable that the habitual use of an impervious covering is injurious. Its effect must be to place the body in a constant vapor bath, in which the insensible or healthy perspiration is constantly becoming condensed into the form of humidity, and being prevented from passing off in its elastic and invisible form, the perspiration is thus constantly checked, and skin eruptions must be the result. Nevertheless, it must be less injurious to check perspiration, in some degree, by a water-proof overcoat, than to get soaked with rain. There can be no doubt but water proof fabrics may be very light, and so formed as to be worn in wet weather, and yet allow some room for perspiration. But still they are not healthy, and should never be put on but in cases of extreme necessity. Any person who has worn a water-proof outer garment for some time, knows by experience that it causes weakness and chills. No person should wear a garment but such as allows the vapor or perspiration which is continually exuding from the skin to pass off freely. For this reason a frequent change of entire clothing conduces to health. Clothing should be light and warm, and not too tight. A happy change in the fashions has taken place within a few years; it is the substitution of loose outer garments for the old-fashioned, tight, close and pinching overcoats.—Too few flannels are worn in America, especially along the eastern coasts, where sudden changes are frequent, and where many cold rains fall during the winter season. Children should always have their outer garments for winter made of woolen materials. Although India-rubber over shoes are excellent for walking in the street in wet weather, or when there is a thaw with snow upon the ground, they should never be worn at any other time, and should be taken off as soon as the wearer enters a house. They prevent perspiration in a great measure, and are only useful as a lesser evil than getting the feet completely wet from outside water.

Extracts from a few Notices given a year since, when the Work was unfinished.

"It is a monument of patient industry and precise accuracy, and we can hardly err in assuming that in every office of banker, insurance, or general operator in money, as well as in all houses connected with trade, this volume will be introduced, for the great comfort of clerks, and the entire security of principals."—*N. Y. Courier.*

"With this volume in his hand, it appears to us that the merchant or banker might challenge all the learned professions, and all scientific pursuits, to bring up from their archives, if possible, a greater monument of intellectual industry, ingenuity and success. * * * It is the fruit of nine years of unremitting labor, with many assistants, and at an expense of nearly $20,000.

"Such results have never before been achieved by the intellect of man."—*N. Y. Jour. of Commerce.*

"It is now nearly three years since we first commenced using a portion of this work, during which time we have determined the interest on upwards of three thousand accounts current, with a saving of at least 50 ₩ cent of our time.

"The work is original in every particular, worthy of unlimited confidence, and richly merits universal patronage.

TRUSTEES SALE.
BY VIRTUE of a certain Deed of Trust, executed by Levi Putnam to the undersigned as Trustee, to secure the amount of four Promissory Notes therein mentioned, and which Deed of Trust is dated the sixth of August 1851, and recorded in the Recorder's office of Grundy Co. Ill., in Book E. page 225; Notice is hereby given that in pursuance of the power on me conferred by said Deed of Trust, I will on Saturday, the 2d day of April, 1853 next, at the Court House door in the city of Chicago, at the hour of 12 o'clock A. M. of said day, offer at public sale to the highest bidder for cash, all that certain tract, piece or parcel of land, in the county of Grundy, described as follows: the N E¼ of Sec 13, Township 31, North of Range 6, containing 160 acres.
B. F. SHERMAN, Trustee.
Chicago, March 18, 1853—mh23d1d

SHERIFF'S SALE.
BY VIRTUE of a decree of the La Porte Circuit Court and an order of sale thereon in favor of Andrew Mitchell and against Harvey Strong, I will sell at Public Auction at the Court House door in the town of La Porte, on the 23d day of April next, between the hours prescribed by law, the following described real estate, to wit: A part of Lot No. 127 of the Original Survey of the town of La Porte, beginning at the North East corner of East and South Main streets, thence along South Main street N 54° E 68 feet; thence N 36° W 40 feet; thence N 54° E 22 feet; thence N 36° W. 40 feet 8 inches; thence S 54° W. 16 feet; thence S 36° E. 30 feet 8 inches; thence S 54° W. 75 feet, to East Main street; thence along said street S 36° E. 50 feet to the place of beginning.
The sale will be nominally for cash, and the property will be conveyed to the purchaser by the undersigned, but by an arrangement of the parties interested, one third of the purchase money only, will be required in hand, and the residue in equal instalments at one and two years with interest annually, to be secured by a mortgage on the property, with a power of sale waiving appraisement laws.
The attention of capitalists is called to this property, it is situated at the corner of the two most public streets in the town, immediately opposite the Public Square, and has been for a number of years, and is now occupied as dry goods and other stores, doing an extensive business, yielding an annual rent of over $800. It is thought to be the most eligible location for business in the town, and from its position on the most public street leading to the depot of the Northern Indiana Railroad, must ever remain so.

AUSTRALIAN STEAMSHIP COMPANY.
The Company's Magnificent New Steamship
"GOLDEN AGE,"
3,000 TONS, Will be Dispatched
For Port Philip, Melbourne & Sidney, Australia,
ABOUT THE 15TH OF MAY.
THIS Steamship is of the size and strength and in every way equal to the Collins line of Steamers, being 330 feet in length, 43 feet beam, and 32 feet hold. She is double diagonally braced, with iron bars, and every improvement that experience and science can suggest has been adopted. Her accommodations for First, Second, and Third Class Passengers are believed to be superior to any steamer ever built. Her model is unequalled, and it is confidently expected that she will make the trip from New York to Australia within 55 days—stopping only at the Cape of Good Hope to coal. Passengers may rely that every attention will be paid to their wants, and that the ship will be liberally supplied with every comfort. An experienced Surgeon will be attached to the ship.
RATES OF FARE.—First Cabin Ladies Saloon, $375; First Cabin Upper Saloon, $350; Second Cabin Lower Saloon, $275; Third Class Forward, $200. Children under 12 years of age, half price.
Eight cubic feet of baggage allowed to each passenger, not exceeding 200 pounds in weight. Books are now open. A remittance of one half the amount will secure a berth—balance to be paid within 30 days before the time of sailing. For freight or Passage, apply at the office of the Company, to
J. HOWARD & SON, Ag'ts, 34 Broadway.

A CARD.
THE undersigned, who has been doing business as the Actuary of the Mechanics' Mutual Health Association of Cincinnati, Ohio, for the last year at Chicago, having determined to devote his whole attention to his profession, would respectfully notify the public that he has resigned his Agency for said Association, and hereafter the business of this branch office will be conducted by MR. H. A. BREWSTER, an experienced Actuary from the Home office.
It has afforded me much pleasure during my connection with this organization, to witness the numerous instances in which sick and disabled members have been relieved and sustained by its timely aid. And I will here take the opportunity to state to members that the business of this Association, so far as my knowledge extends, has been conducted by the Directors in strict accordance with the rules and regulations of the Association. Every just claim has been adjusted and paid with as much promptness as possible.
I have the utmost confidence in the present Board of officers, and do not doubt but members will find, as heretofore, every thing conducted in strict accordance with the rules of equity and right.
My long acquaintance with the officers has convinced me of their thorough business qualifications and strictly moral integrity, and they have my warmest wishes for their future prosperity. C. R. STARR.

BRADBURY'S
PIANO AND MELODEON WAREROOMS,
NO. 423 BROADWAY, NEW YORK.
FROM enlarging my Warerooms, I am enabled to keep a much greater assortment of Instruments than heretofore. All Pianos furnished are of an elastic touch, and of an even quality, and deep, full, rich and purely Vocal tone, qualities most desirable, inasmuch as the voice will assimilate to the tone of the instrument. All my Instruments are fully warranted, a guarantee accompanies every bill of sale, and are sold as low as can be purchased elsewhere. Second hand Pianos at all prices.
A NEW INVENTION.
The Organ Melodeon, with Two Banks of Keys, the only thing of the kind in the country, having Two Stops, Coupler, swell draw stops, &c., a sweet and powerful Instrument, pronounced by Organists to be superior for churches or Organ practice to the medium sized Organs, price $200. Also the common melodeon of all styles and prices. Being the exclusive Agents for these Instruments, orders are solicited. The usual discount made to the trade, and 10 per cent to clergymen purchasing for their own use.

DAILY TRIBUNE.

CHICAGO, WEDNESDAY, MARCH 23, 1853.

JOB PRINTING.

We would remind our friends, and the public, that we are ready to do all kinds of JOB PRINTING at a short notice. Our material is entirely new, and embraces the best styles of type.

Orders left at the Counting Room, on the ground floor, next door to the Post Office, will be promptly attended to.

THE ANNUAL STATEMENT.—We have been under the necessity of printing a *third* edition of Saturday's *Tribune*, containing this valuable document on the Trade, Commerce and Railroads of Chicago. We are thus enabled to offer a few more copies to our friends. Those wanting them, however, should call early, as we have distributed the type, and can publish no more. Has any one neglected as yet to send this article to his Eastern or Southern friends? If so, we trust he will hunt up some three cent pieces, and drop in at the Tribune office, 53 Clark street.

LATE IN THE DAY.—Emphatically so were some of the morning Tribunes circulated yesterday. We are compelled to proclaim our own late-comings in order to have the requisite hook on which to hang an explanation. Our usual edition was printed, but an unusual demand for papers at the railroad stations and out of the city made the supply for the carriers (who get their papers last) "short." For the sake of partially repairing the evil done to our city subscribers, we went to the trouble of printing an extra edition during the forenoon. But such a failure shall not occur again. We shall see to it that the supply is equal to the demand hereafter.

The active business season has commenced. Many of the old and dilapidated buildings that have so long disfigured our principal streets are already in motion, to give place to structures that will better accommodate the rapidly increasing business of our city. Blocks are to be erected during the coming season on Clark, Lake, Randolph and Dearborn streets, that in solidity and style of architecture will surpass any now in our city. We are glad to know that more attention is to be paid to the style of building and that our citizens are beginning to consider that architectural symmetry and beauty are not inconsistent with utility and solidity. Strangers not unfrequently remark that very little taste is displayed in and around Chicago; but they forget that it is yet in its early youth, that we are all an active and a working people, and that the taste and refinement of cities of a century's growth are not to be expected of us. Still it is no more expensive to construct a building whose proportions are just and whose general features are in accordance with the rules of architecture than it is to build with reference only to utility. A little attention to this would, we are satisfied, greatly improve the appearance of our city.

CHICAGO AND THE MISSISSIPPI.—Of all the phases in which the subject of railroads, that are now in the process of construction between this city and the Mississippi river, has been presented, we think, that one has not been appreciated, and that is the number of points on that river one will soon be able to reach by these avenues of travel and trade. In looking over the matter yesterday, we find they go to at least nine, viz: Galena and Dubuque, Savanna, Fulton City, Rock Island, New Boston, Oquawka, Burlington, (Iowa,) Quincy and Alton.

The Publishing Committee of the North Western Christian Advocate and the Methodist Book Depository of this city, meets to-day at 63 Randolph Street. It consists of one member from each of the following Conferences:—Rock River, Iowa, N. W. Indiana, Wisconsin, Michigan and Illinois. Rev. J. E. WILSON, of this city, is Chairman.

NEW BOILER WATER GUAGE.—Mr. A. H. Judd of St. Louis, has just brought out a new and valuable invention for the purpose of indicating a lack of water in boilers. The apparatus is very simple and effective, and though not exposed to a failure in its working, is however so arranged as to show it instantly if any would occur. The machine may truly be called a Life Preserver, as many explosions of boilers have resulted from want of sufficient water. If engineers were never careless, there would be no positive need of such protections, for, if we are not mistaken, there is no difficulty in ascertaining the altitude of water in a boiler, within all needed precision. But as a matter of convenience, such an indicator would be valued by most engineers.

The instrument is being rapidly adopted where it is known. Capt. Springer brought one to the city yesterday, and for the present will act as Agent for the inventor. For a few days a specimen of the Guage can be seen at the Business office of the Tribune. For some testimonials to its value and other statistics, we refer to the advertisement in our paper.

We understand that a project is in contemplation which, if carried into effect, will add much to the appearance of this city. The Michigan Central Railroad is to run four hundred feet from the western line of Michigan Avenue. It is proposed to fill up the space between the road and the shore of the lake, and convert it into a public park. As we have no spacious pleasure grounds now of the city, something of the kind is almost absolutely necessary to the comfort and convenience in our citizens. Although the width of the proposed park will not be great, yet if properly laid out and ornamented, it will form at least a delightful promenade, and the appearance of the town from the lake will be incalculably improved. We sincerely hope that this project may not exist in contemplation only.

A GYMNASIUM.—It is with much pleasure that we see the article in Monday's paper on Gymnastic Exercise attracting attention, among those who are ready to do in the matter of establishing an institution in our city. Those interested in the subject should talk it over together, interest others, and as soon as possible let a meeting be called for adopting executive measures. A Gymnasium and a City Park are among the leading wants of Chicago at the present time.—Let us talk them up, and then do. The only body of men with whom any contention may be necessary, are the Doctors, for they would suffer. In fact, on the ground of economy, Gymnasiums for both sexes should be built. A Gymnasium, well improved, will save a doctor's debt, and put off, perhaps for years, the payment of the great debt of Nature. We say what we mean, for the truth is settled, that the violation of natural laws as well as of moral laws, involves retribution. It would be impossible for a man to live long standing on his head, for the simple reason that he was made to stand upon his feet; yet there are those who would be exactly represented in their relation to the laws of nature by this inverted position. They disobey, yet wonder why they suffer.

BARTLETT'S COMMERCIAL AND BANKING TABLE.—We were shown yesterday by Mr. D. B. Cooke, Bookseller of this city, a very elaborate and neat work, by Mr. R. Montgomery Bartlett, Principal of a Commercial College in Cincinnati, embracing Tables for computing with facility Interest on money in its manifold varieties, and all the calculations made necessary by exchange with Foreign countries. Being able to judge only to a limited degree of the value of such a work, we give the testimony of one among many bankers and business men who commend its universal use. T. S. Goodman & Co., Bankers of Cincinnati, says: "It is now nearly three years since we first commenced using a portion of this work, during which time we have determined the Interest on upward of three thousand accounts current, with a saving of at least 50 per cent. of our time." It is sold by D. B. COOKE & Co., Lake st. Price $20.

SUGAR.—By referring to our table of receipts by Canal, it will be seen that the amount of sugar received during the last twenty-four hours is equal to *one-fourth* of the whole amount received during the last season from the same source. This looks like business, does it not?

We are compelled to proclaim our own late comings in order to have the requisite hook on which to hang an explanation. Our usual edition was printed, but an unusual demand for papers at the railroad stations and out of the city made the supply for the carriers (who get their papers last) "short." For the sake of partially repairing the evil done to our city subscribers, we went to the trouble of printing an extra edition during the forenoon. But such a failure shall not occur again. We shall see to it that the supply is equal to the demand hereafter.

☞ The active business season has commenced. Many of the old and dilapidated buildings that have so long disfigured our principal streets are already in motion, to give place to structures that will better accommodate the rapidly increasing business of our city. Blocks are to be erected during the coming season on Clark, Lake, Randolph and Dearborn streets, that in solidity and style of architecture will surpass any now in our city. We are glad to know that more attention is to be paid to the style of building and that our citizens are beginning to consider that architectural symmetry and beauty are not inconsistent with utility and solidity. Strangers not unfrequently remark that very little taste is displayed in and around Chicago; but they forget that it is yet in its early youth, that we are all an active and a working people, and that the taste and refinement of cities of a century's growth are not to be expected of us. Still it is no more expensive to construct a building whose proportions are just and whose general features are in accordance with the rules of architecture than it is to build with reference only to utility. A little attention to this would, we are satisfied, greatly improve the appearance of our city.

CHICAGO AND THE MISSISSIPPI.—Of all the phases in which the subject of railroads, that are now in the process of construction between this city and the Mississippi river, has been presented, we think, that one has not been appreciated, and that is the number of points on that river one will soon be able to reach by these avenues of travel and trade. In looking over the matter yesterday, we find they go to at least nine, viz: Galena and Dubuque, Savanna, Fulton City, Rock Island, New Boston, Oquawka, Burlington, (Iowa,) Quincy and Alton.

☞ The Publishing Committee of the North Western Christian Advocate and the Methodist Book Depository of this city, meets to-day at 63 Randolph Street. It consists of one member from each of the following Conferences:—Rock River, Iowa, N. W. Indiana, Wisconsin, Michigan and Illinois. Rev. J. E. WILSON, of this city, is Chairman.

NEW BOILER WATER GUAGE.—Mr. A. H. Judd of St. Louis, has just brought out a new and valuable invention for the purpose of indicating a lack of water in boilers. The apparatus is very simple and effective, and though not exposed to a failure in its working, is however so arranged as to show it instantly if any would occur. The machine may truly be called a Life Preserver, as many explosions of boilers have resulted from want of sufficient water. If engineers were never careless, there would be no positive need of such protections, for, if we are not mistaken, there is no difficulty in ascertaining the altitude of water in a boiler, within all needed precision. But as a matter of convenience, such an indicator would be valued by most engineers.

The instrument is being rapidly adopted where it is known. Capt. Springer brought one to the city yesterday, and for the present will act as Agent for the inventor. For a few days a specimen of the Guage can be seen at the Business office of the Tribune. For some testimonials to its value and other statistics, we refer to the advertisement in our paper.

☞ We understand that a project is in contemplation which, if carried into effect, will add much to the appearance of this city. The Michigan Central Railroad is to run four hundred feet from the western line of Michigan Avenue. It is proposed to fill up the space between the road and the shore of the lake, and convert it into a public park. As we have no spacious pleasure grounds now of the city, something of the kind is almost absolutely necessary to the comfort and convenience in our citizens. Although the width of the proposed park will not be great, yet if properly laid out and ornamented, it will form at least a delightful promenade, and the appearance of the town from the lake will be incalculably improved. We sincerely hope that this project may not exist in contemplation only.

A GYMNASIUM.—It is with much pleasure that we see the article in Monday's paper on Gymnastic Exercise attracting attention, among those who are ready to do in the matter of establishing an institution in our city. Those interested in the subject should talk it over together, interest others, and as soon as possible let a meeting be called for adopting executive measures. A Gymnasium and a City Park are among the leading wants of Chicago at the present time.—Let us talk them up, and then do. The only body of men with whom any contention may be necessary, are the Doctors, for they would suffer. In fact, on the ground of economy, Gymnasiums for both sexes should be built. A Gymnasium, well improved, will save a doctor's debt, and put off, perhaps for years, the payment of the great debt of Nature. We say what we mean, for the truth is settled, that the violation of natural laws as well as of moral laws, involves retribution. It would be impossible for a man to live long standing on his head, for the simple reason that he was made to stand upon his feet; yet there are those who would be exactly represented in their relation to the laws of nature by this inverted position. They disobey, yet wonder why they suffer.

BARTLETT'S COMMERCIAL AND BANKING TABLE.—We were shown yesterday by Mr. D. B. Cooke, Bookseller of this city, a very elaborate and neat work, by Mr. R. Montgomery Bartlett, Principal of a Commercial College in Cincinnati, embracing Tables for computing with facility Interest on money in its manifold varieties, and all the calculations made necessary by exchange with Foreign countries. Being able to judge only to a limited degree of the value of such a work, we give the testimony of one among many bankers and business men who commend its universal use. T. S. Goodman & Co., Bankers of Cincinnati, says: "It is now nearly three years since we first commenced using a portion of this work, during which time we have determined the Interest on upward of three thousand accounts current, with a saving of at least 50 per cent. of our time." It is sold by D. B. COOKE & Co., Lake st. Price $20.

SUGAR.—By referring to our table of receipts by Canal, it will be seen that the amount of sugar received during the last twenty-four hours is equal to *one-fourth* of the whole amount received during the last season from the same source. This looks like business, does it not?

Prying of an entire Newspaper Establishment.

The following communication from Mr. Dutch, editor of the *Commercial Advertiser*, will be read with great interest and surprise. What does this summary breaking up of his establishment mean? Is it law or justice that property should be destroyed in this way? We forbear to give expression to our sentiments in the first flush of excitement, but we demand a satisfactory explanation of such a deed:

To the Editors of the Chicago Tribune:

It becomes necessary for me to avail myself of the kind and polite offers of my brethren of the Daily Press of this city, to lay before my friends a difficulty in which I found myself on my return from the Celebration of the opening of the Chicago and Rock Island Railroad.

I left the city on Monday morning with the party from Peru, which was expected to return the same night, but owing to a settling of the road through one of the swamps, the cars were detained through the night, so that I did not reach home until twelve o'clock, yesterday.

On my return, I found the whole of the type taken from the office, all thrown into "pi," and much of it scattered through the streets, and books and papers sharing the fate of the type and furniture.

This was done by Deputy Sheriff Regan, professedly on a distress warrant, in which the parties claim fifty dollars ($50) due for rent.

There is probably a small amount in arrears of rent, though I do not think half, even, of that small sum is due. The amount, however, of the arrearages, even if the whole sum declared were due, is not what I intend to say much about, as my receipts in the office were scattered to the streets and to the winds, and the amount is not taken into consideration.

This Deputy Sheriff Regan came into the office about seven o'clock on Monday evening, with a number of men, and said to one of the printers left in the office, that his orders were to clear the office of every thing in it, on a distress warrant for rent, from Francis C. Sherman, and he must proceed instantly to his duty. He told him I was absent from home, but was expected to return on the arrival of the cars with the company that had gone to the Railroad Celebration, probably in a few hours.—He replied that his orders and his duty admitted of no delay, and proceeded to hustle the type from the composing stones, and the cases into anything that came to hand, and throwing them into a two-horse wagon, carried every thing out of the office in a most spiteful manner, and in the utmost confusion.

The printers in the office told the Deputy Sheriff that the manner in which he was handling the materials would destroy them for future use, and that they would be good for nothing but old metal. He heeded neither the solicitations to wait until my return, or his caution.—His men also slid one form of type down the stairs on their face, and knocked another into "pi" on the wagon, and finally emptied the whole into one confused heap together in a stable in an alley.

The Deputy Sheriff was also informed by Dr. Geo. E. Shipman that he was destroying property that was in his charge, and belonged to other parties.

All this was unheeded, and he went on in the work of destruction, which he had completed when I returned to the office, a little past 12 o'clock on Tuesday.

The furniture of the office, including about 1,500 lbs. of nearly new brevier and nonpareil type, such as the *Commercial Advertiser* has been printed upon, is all in one mass of confusion or scattered in the streets and comparatively worthless.

I would here state to my friends that my Brethren of the Daily Press volunteered to see the *Commercial Advertiser* out this morning, if I would say the word, from materials in their office. But it was too late for me to recover from my surprise and prepare one, and I could not avail myself of the kindness of my cotemporaries.

I shall, however, make immediate arrangements for appearance again—and shall hold the authors of this outrage accountable to law, and leave the balance to the decision of the public.

This most singular way of destroying thousands of dollars of property in order to get $50, will undoubtedly surprise many who understand it, and may be perplexing to many to divine the cause of such an act, though it is thought there are many who will understand the object of a Sheriff entering the office when I was out of the city, after night, and most of the printers had left work and gone home.

FIRE.—A Fire broke out last night about half past ten, in a building on Wells Street, occupied by Nugent & Owens as a Manufactory of Brittania Ware. Our Firemen were soon on the spot, and with their usual promptness, succeeded in extinguishing it before it had an opportunity to spread any farther.

ROBBERY.—Yesterday several of our citizens were seen furthering the ends of justice, by pursuing a young gentlemen who seemed to have very liberal notion of the "rights of things."—Among the pursuers was one, a traveler, who appeared to be in great distress, and from whom we understand a watch and quite an amount of money had been stolen. The fugitive when surrounded, at first showed fight, and when taken consoled himself by giving vent to an overwhelming volley of oaths. He has recently returned from Alton, where the State of Illinois sent him, merely for mistaking his neighbor's chickens for his own. A few more years residence in that delectable place will probably teach him the difference between meum and tuum

☞ Sunday noon the schooner Erie, in beating into the harbor, stood in too near to the shore north of the pier and ran aground, but was got off again without injury.

FIRST BOAT FROM ST. LOUIS.—The lake boat Diamond, of the Chicago & St. Louis Line, has arrived with a cargo of molasses, direct from St. Louis.

PROMPT PAYMENT OF INSURANCE.—Ring & Smith the Ætna Insurance Company of Utica, N. Y., have, it will be seen by a card from Messrs. J. C. Louderman & Co., promptly paid the loss which they incurred by fire, a short time since, in this city. This disposition to adjust losses, and to pay them promptly, must recommend this Company to those requiring insurance.—*St. Louis Intelligencer.*

M'LANE'S VERMIFUGE.—The effects of this truly extraordinary medicine are most satisfactory in all cases in which it has been tried. No other medicine has ever produced such effects so instantaneously. It has been used in the practice of the best physicians of our country, and by them been pronounced equal, if not superior to any medicine ever offered for the expulsion of worms. Read the following:

George Maxwell, Augusta, O. has used it with great effect in his family, and has sold large quantities, which have given the highest satisfaction.

J. H. Cutter, merchant, Louisville, administered a dose to his child, who discharged a quart of worms. He had tried other Vermifuges in vain.

D. J. & J. W. Cotton, Winchester, Ind. happened to get a lot from an agent, which was soon sold out, and proving highly efficacious, became very popular, and sold more rapidly than any other Vermifuge.

This great Worm Medicine is to be had from Druggists and country merchants. mh22

CHICAGO, Jan. 1853.

MR. SOLOMONS: Sir—I think it no more than an act of justice to you as well as to the American community to state the spectacles I bought of you suit me well. I find my sight much improved. I can see small print with them for any length of time without fatigue to my eyes. Should my sight continue to improve by the use of them, I have no doubt but I shall be able to read without them in a short time.

Yours truly, HENRY MORE, Jackson st.

CHICAGO, Jan. 15, 1853.

MR. SOLOMONS: Sir—The benefit I have derived from the Spectacles obtained from you, induces me to express the pleasure I have received from them. They suit my sight to admiration, by candle light as well as day; I read with the same ease as when a boy; which I could not do with any other glasses I have used. It affords me the greatest pleasure to avail myself of this medium of testifying how satisfactory has been my own experience of your skill as an optican.

Yours truly, A. CARTER, Monroe st.

CHICAGO, Jan. 15, 1853.

MR. SOLOMONS:—From infancy I have been afflicted with weak eyes and short sightedness, and in all my travels I have never been able to get a pair of glasses that would help me. I have had several pairs that would enable me to see more distinctly, but could never keep them on more than one half hour, from the fact that they caused such great pain.

I happened to see your advertisement, by which I saw you had just imported some, and it has been my constant aim to get a pair that would benefit me, thought I would try yours.

You must not think me flattering when I say they more than answer my expectations. I have not been able to read by candle light for more than half an hour at any time before I got these glasses. Since I got these I read one Sunday all day, and until ten o'clock, without experiencing the least pain, which is a thing I have not done before for years.

I say this much, as I think it deserving your enterprise, and hoping others may be benefitted by it.

You are at liberty to make use of my name at any time for reference. I am, sir, yours truly,

J. B. PARSONS.

P. S. I forgot to mention that my wife is greatly benefited by the pair she got, and equally pleased, PARSONS.

CHICAGO, Jan. 14, 1853.

MR. SOLOMONS: Dear Sir—I am happy to express to you my thanks and acknowledgements for the benefit I have derived from the Spectacles which I obtained from you. They suit me perfectly in every respect and though as strong as prudence would allow me to select, they have never caused me the least pain or strain upon the eyes, such as spectacles which I have formerly worn have done. I can now see all common instances by candle light, as well as by daylight, with the same ease as when a boy, and which I could not do with any other spectacles I have yet worn. I have now worn your glasses for three weeks, and avail myself of this opportunity to testify to you how satisfactory to me has been my experience of your skill as an optican.

A NATIONAL WORK.

THE WORKS OF JOHN C. CALHOUN, to be handsomely printed in Octavo Volumes. The following will be the order of publication:

1. On the Constitution and Government of the United States. (Now ready.)
2. Speeches in Congress.
3. Diplomatic papers and Correspondence.
4. His Life.

CALHOUN, CLAY, and WEBSTER are three names which will long be venerated by American citizens. Of the three, Calhoun, during the early part of his life, was perhaps the greatest favorite with the people. His highly cultivated mind, profound views of government, and his pure character, gave great weight and importance to his opinions with all parties. Of the writings and speeches of American statesmen, there are scarcely any who bear so directly upon the great measures adopted by our Government, during the last forty years, as those of the lamented Calhoun. The War, the Revenue System, the Currency, and States Rights, were subjects upon which he took a leading position, and greatly aided the decisions which were made on them. With those who took an interest in our national history, the value of the writings of our public men cannot be too highly estimated.

The works of Calhoun will follow each other rapidly from the press. All who are desirous of procuring them are invited to call at 111 Lake street, and subscribe without delay. Terms—$2,00 per volume. Volume 1st, just received by mh8 S. C. GRIGGS & CO.

LOCK HOSPITAL.

No. 150 Washington Street.

THE ONLY CERTAIN REMEDY FOR THE CURE OF Secret Diseases at 150 Washington street. By the strict system established at the Lock Hospital, 150 Washington st., all patients are secure of absolute privacy. The advantages of this system are too well known to need any comment. All who have any need of advice or attention from Dr. D., may confide in him with a full assurance of secrecy and certain hope of recovery. Some of the most learned and famous men in the country have been under his charge—men of genius, intellect and power—and in no instance has the strictness of privacy been violated.

Invalids must be cautioned against the illiterate and unlearned in science, who do so much injury by quackery and imposition. The Vegetable Medicines of Dr. D. are now sufficiently established, as the only certain remedy for Venerial complaints, and those who are afflicted with such complaints are seriously warned not to tamper with them, by trusting those who practice the abuse of mercury or balsam.

Dr. D. freely invites all troubled with disorders to call upon him. His charges are regulated by the circumstances of the case. No charge will be made where a cure is not effected. Dr. D. is a regular physician, having devoted many years to the exclusive study of these diseases, comprising, in their various shades, Gonorrhoea, Syphilis, Impotency, Strictures, Gleet, Scrofula, diseases of the bones, &c. Nothing is needed but to call upon him, to make everything satisfactory in a moment. Such is the absolute efficacy of the method of his cure, that no question can possibly exist about it, when once an individual becomes acquainted with the wholesome and certain process. It is but for a man to say he is afflicted, and see himself cured.

The greatest point for the consideration of everybody is, to avoid all communication with persons unqualified to give them relief. Serious and dangerous consequences ensue more than the world is aware of, from the treatment of quacks and impostors.

The only certain way is to visit the Lock Hospital, or Dr. D's office, at No. 150 Washington street, and at once place yourself under his care.

☞ Office will be kept open from 9 A. M. until 10 P. M.

☞ All letters (post-paid) will receive prompt attention. Any person wishing a private room, until cured, can have it by applying to Dr. D. oc20

DR. ATKINSON,

Confidential Physician, 207 Randolph street, corner of Franklin, continues to cure all cases of disease of a Confidential nature, with secrecy and dispatch. His charges are moderate, success certain, and conduct honorable. Private Rooms, and entrance on Franklin street. Worst cases solicited. Letters from city or country, addressed to Dr. A., box 969, P. O., will meet due attention, and medicine can be sent secure to any part. se23-dly

Important to those affected with Imperfect Vision

CHICAGO, January 27, 1853.

MR. SOLOMONS—I send you this certificate that you may make known the great benefit you have been to thousands of your citizens. I called with my husband at your office on Lake st., on the 12th inst., and bought a pair of your Patent Spectacles, which you recommended. But you must excuse me when I state I had but little faith in them at that time; but am happy to inform you I have been agreeably disappointed. I have not been able to sew or write a letter for the last three years. I am now able to do both as well as I ever could in my life. If any person was to offer me a hundred dollars, I would not part with them. I feel so pleased with them. I give you full liberty to use my name at any time, as I am sure your Spectacles have been a great benefit to me, and will be to the people of this nation.

I remain yours &c.

Mrs. A. HAMLIN, 62 Randolph st.

MR. SOLOMONS: Sir—Having been induced to call on you from hearing of an advertisement in the Chicago newspapers headed "Sight and Hearing," I cannot refrain from adding my testimony in favor of your spectacles. I have tried almost every store in the State, and could not get any Spectacles to suit me. I have been laboring under a defect of sight for the last ten years, and for eight years have not been able to read or thread a needle, and consequently gave up all hopes of ever seeing again; but Mr. S. looked at my eyes and gave me a pair of Glasses which he recommended me to wear, and to the great delight of my husband and family, I was able to read a newspaper as well as when a girl of 18 years of age. After being nearly in darkness for eight years I am again, by the assistance of Mr. Solomons' Spectacles, in possession of good sight. RHODA M. POTTER, Kinzie street, opposite Round House.

MORE NEW CERTIFICATES.

CHICAGO, Dec. 14, 1852.

MR. SOLOMONS: Sir—I have been under the necessity of using Glasses for several years, but have never found a pair to suit my eyes until I got them from Mr. S. Since that time I find my eyes much better. Wishing you every success in your undertaking, I am yours &c.

C. P. KELLOGG, No. 171 State st.

CHICAGO, 20th Jan. 1853.

MR. SOLOMONS:—I called at your office on the 22d day of Dec., and stated the nature of my eyes, which was very bad at that time; you suited me with Spectacles that did my eyes a great deal of good. They were very much inflamed at that time, but that inflamation has now left. I can now bear the light of sun or lamp as well as ever. I shall call on you and get another pair in case I should have any misfortune with them, as I would not be without them under any consideration. feb9 Yours truly, E. CARVER.

Washington, March 22.

In the Senate Mr. Weller offered a resolution, that the select committee on the Mexican Boundary Commission, be allowed until the next session to make their report—adopted.

Senate then went into Executive session.

New York, March 22.

The Collins steamer Atlantic arrived at her dock about 6 P. M., having left Liverpool at 10 A. M. on the 8th. She brings 42 passengers.

The Niagara arrived on the 8th. The news is unimportant.

The following is from the Circular of Richardson Brothers:

Weather, after fortnight's frost, has become mild, and the land will soon be in a state to receive seed. Our market this morning had the usual attendance of the local dealers and millers from some of the interior towns, but not finding holders of wheat offering under prices of Friday. Flour was in the same sluggish state that we we have of late reported this branch of the trade, and where sales were effected the buyer had the turn of the market in his favor. Indian corn slow for both white and yellow, and 32s for American. Large arrivals of breadstuffs have slackened the demand. Cotton closed dull with a declining tendency.

Robert Macon & Sons, in their Circular of the 8th, quote wheat one penny lower, and flour 6d @ 1s lower than on Friday.

London money market quiet; consuls closed 99¾@99⅞.

ENGLAND.—In the House of Lords, Monday, Lord Aberdeen, in reply to inquiries, said that Government had no information of the escape of Mazzini from Genoa on the British frigate Retribution. Lord Malmsbury said if it were true it was an act of most ill-judged humanity.

The subject of education in Ireland had been under debate in the House of Lords.

In the House of Commons some remarks sprung up between Mr. Hume and Lord John Russell as to the proposed canal through the Isthmus, which the latter declared the Government in favor of the project if practicable, and desirous of the co operation of the U. S.

Parliament was to adjourn over on the 18th to the 4th of April, for the Easter holidays.

The West Indies Mail steamers Hawks and Oronoco had arrived at Southampton with a large amount of specie.

The Board of Trade returns for February show an increase of 30 per cent, of the value of exports over the same month last year.

The Directors of the Atlantic and Pacific Junction Co. had an interview with the American Minister. The result had not transpired.

The postage between England and all the British Colonies had been reduced to six pence per half ounce.

AUSTRIA.—The Emperor has nearly regained his usual health.

The reported conspiracy in the fortress of Comorn is confirmed.

ITALY.—Mazzini has published two letters, which have produced disunion in the Democrat ic camp.

The U. S. brigs Cumberland and St. Louis were at Genoa, and had received on board the more violent of the refugees to whom the British frigate, on which Mazzini was believed to be, had refused hospitalities.

TURKEY.—The details of the settlement of the Montenegro question are already published.

The Ultra Turkish party are much annoyed at the submission of the Porte and demands of Austria, and it is said the ministry will have to resign.

ASTHMA, or difficulty of breathing, is caused by a collection of morbid humors in the air cells of the lungs, which prevent them from being duly expanded—hence difficult and laborious breathing, cough, great oppression of the breast, pain in the head, and many other distressing complaints.

Wright's Indian Vegetable Pills are always certain to give relief in Asthma, because they purge from the body those humors which are the cause of every malady incident to man. From four to six of said Vegetable Pills, taken every night on going to bed, will in a short time carry off the most violent of Asthma, and if used occasionally afterwards, will keep the system in sound health.

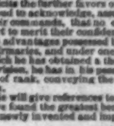
READ FOR OURSELVES

THAT WE MAY NOT BE DISAPPOINTED.

STAY limited to Thursday, April 7th. So those ladies and gentlemen who have not been suited with Mr. Solomons' Spectacles, and favored him with letters to prolong his stay in this town, he takes this opportunity of reminding them that immediate application is absolutely necessary, as he will not stay one day after the above date. mh16

NEW DISCOVERY FOR THE EYES



SPECTACLES &c., ground on the exact principle of Spherical Accuracy, by G. SOLOMONS, the celebrated Optician, from the Improved Spectacle Manufactory and London Optical Establishment, No. 165 Old Bond st., London—established more than a century ago.

G. SOLOMONS, the sole inventor of the Improved Spectacles, and various improved Glasses, is now on a professional visit to this place, and may be consulted at his office, over Ward & Doggett's, 188 Lake st.

He has had the honor of attending the above named principal towns in the United Kingdom, where he has experienced the most flattering encouragement—and having been earnestly solicited to make a visit for a short time, he has the honor of announcing his arrival from London, with a most splendid assortment of his newly invented and improved Spectacles. Such is the superiority of these Glasses that persons having inflamed or weak eyes, may instantly be relieved by using them, and they possess the property of preserving the precious organ of sight to the most advanced period of life, while they enable both the old and the young to pursue the most minute employment for any length of time, both by day or candle light. As several individuals in the United States have proved their efficacy, he, with confidence, solicits the further favors of the public, which he will ever be proud to acknowledge, assuring those who entrust him with their commands, that no exertion shall be wanting on his part to merit their confidence and approbation. Added to the advantages possessed by him of long practice in the Eye Infirmaries, and under one of the most eminent Oculists, by which he has obtained a thorough knowledge of the diseases of vision, he has in his possession documents from individuals of rank, conveying the highest testimonials of approbation.

He will give references to persons in the United States who have found the greatest benefit and comfort from the use of his newly invented and improved Spectacles.

NEW DISCOVERY FOR DEAFNESS.

The *Sound Concentrator* is an extraordinary, powerful, newly invented small instrument, for the cure of extreme cases of deafness, entirely different in make or construction from all others, surpassing everything of the kind that has been or probably ever can be produced. They are not molded to the cavity of the ear, and may rest within without projecting, and being of the same color as the skin are not perceptible. The powers of this valuable invention are so great as to restore defective hearing of long standing, to its perfect and natural state, and to enable deaf persons to join in general conversation, to hear most distinctly at a place of worship, at the bar or any public assembly; the unpleasant sensation of ringing noises in the ear is entirely removed, and the concentrations afforded to individuals afflicted with this dreadful malady all the assistance that possibly can be desired.

Chicago, Dec. 21, 1852.

I have examined Mr. G. Solomons' Glasses and believe them to be constructed upon correct principles, and well suited for all such as have occasion to use them.

J. McLEAN, M. D.,
Professor Materia Medica, &c., Rush Medical College.

Chicago, Dec. 21, 1852.

I hereby certify that I am now using a pair of Mr. Solomons' Glasses, and find them to answer a better purpose for near sightedness than any that I have ever used.

J. W. ELDRIDGE, M. D.

Detroit, Oct. 16, 1852.

I am fully of the opinion, from careful examination and a trial of Mr. Solomons' Glasses, that they are better calculated to accomplish the object designed them, than any now before the public, being shaped upon philosophical principles.

T. B. CLARKE, M. D.

Cleveland, Oct. 27, 1852.

It affords me pleasure to state that on the trial of several specimens of spectacles placed in my hands by Mr. Solomons, I find myself much relieved from a defect of vision, and especially weakness of the eyes, from which I have suffered for the last two years, whenever I have exercised them even for a short period of time. I think they are of an excellent quality and peculiarly adapted for such purposes.

J. P. KIRTLAND, M. D.
Professor of Physical Diagnosis, and Theory and Practice of Medicine, Med. Dep. W. R. College.

Rochester, Jan. 15, 1853.

The best recommendation I can give the Glasses of Mr. Solomons, is that I use them myself and prefer them.

JAMES WEBSTER, M. D.,
Professor of Anatomy, University of Buffalo.

New York, June 4, 1850.

Having made trial of Mr. Solomons' Patent Spectacles, and examined the principle on which they are constructed, I have no hesitattion in pronouncing them superior to any with which I am acquainted, and accordingly can most cheerfully recommend them to all who need artificial aid in improving their vision.

CHAS. A. LEE, M. D.
Professor of Pathology and Materia Medica, Geneva, Buffalo and Bowdoin College.

Philadelphia, June 4, 1850.

I cordially concur, as far as my judgment goes, in the opinion of my friend and colleague, Dr. Lee, in reference to the perfection of Mr. Solomons' convex and oval glasses, for farsightedness. The grinding appears to be good and clear, and the general workmanship superior.

JAMES BRYAN, M. D.,
Professor of Surgery, Geneva College.

Columbus, Feb. 5, 1853.

Having examined the spectacles of Mr. Solomons, I am fully convinced that they are of a superior quality. I have taken a pair for my own use, and find them unusually easy to the eye.

Professor of Surgery, Sterling Med. College

WISTAR'S

Balsam of Wild Cherry,

The Great Remedy for Consumption.

And the Best Medicine Known to Man

For Asthma of every stage, Liver Complaints, Bronchitis, Influenza, Coughs, Colds, Bleeding at the Lungs, Shortness of Breath, Pains and Weakness in the Side, Breast, &c., and all other diseases of the Pulmonary Organs.

A very important disease over which this "Balsam" exerts a very powerful influence, is that of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances, when patients had endured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when Mercury has been resorted to in vain, the use of this Balsam has restored the Liver to a healthy action; and in many instances effected permanent cures after every known remedy had failed to produce this desired effect.

Besides its astonishing efficacy in the diseases above mentioned, we also find it a very effectual remedy in Asthma, a complaint in which it has been very extensively used, with decided success, even in cases of years' standing.

READ THE FOLLOWING.

We are just in receipt of the following voluntary tribute to the curative power of Wistar's Balsam of Wild Cherry, from E. Hall, M. D., of Mt. Clemens, Michigan, who is a physician of high standing, and an extensive druggist.

MT. CLEMENS, Michigan, Oct. 20, 1849.

To all the afflicted this may certify that Mrs. B. Roberts, of this village, three or four weeks after confinement, was attacked with a violent cough and great prostration, and seemed hastening to the grave with rapidity. I advised her to use Wistar's Balsam of Wild Cherry—she did so, and with that valuable medicine alone, in the space of three or four weeks, was restored to health, and is now a living proof of the value of Wistar's Balsam of Wild Cherry.

E. HALL, Physician and Druggist.

Read and be convinced still further of the remarkable virtues of Wistar's Balsam of Wild Cherry:

MESSRS. SANFORD & PARK—Gents: As a matter of justice to you, and for the benefit of the public, I would offer the following statement of a cure effected by your medicine, known as Wistar's Balsam of Wild Cherry. In the spring of 1847, my wife was severely attacked with peripneumonia, or pleurisy, which resulted in a deep seated pain in the right side, accompanied with a severe cough. She was attended by some of the best physicians in Chicago, but to no purpose; for weeks she suffered without relief, coughing incessantly night and day. I came to the conclusion that all the remedies known to physicians could not help her and was induced to try your Wild Cherry. I procured one bottle, and commenced using it according to directions; before it was all gone the cough stopped, the pain in her side left her, and with the aid of another bottle, she was restored to perfect health. In consideration of these circumstances, I would recommend it to the public as a valuable medicine.

Yours, Respectfully, E. N. GARRATT.

HEAR THE PRESS.

From the Fall River (Mass.) Monitor.

"This medicine, prepared by a long experienced and skillful physician, tested and approved by a great number of intelligent, distinguished and respectable persons in various parts of the country, is now received and used with entire confidence, and it is also recommended as a valuable medicine for other diseases, such as colds, coughs, and particularly those diseases whose tendency is to consumption."

From the Boston Mercantile Journal.

"This medicine, coming from a respectable source, and carefully prepared by an experienced and skillful physician, is received by the public with confidence. Its efficacy has been proved in many obdurate cases of disease, and its fame has rapidly extended. It has been extensively used in every part of the country, particularly in the Middle and Northern States, and strong testimony from intelligent and highly respectable persons has been adduced in favor of its merits as a remedy for colds and coughs, affections of the chest, diseased liver and dyspepsia."

From the Cincinnati Daily Times.

"We would advise those of our readers who are laboring under an affection of the lungs to make immediate trial of this truly excellent medicine. The most respectable and intelligent families of our city have adopted it as a favorite medicine; and persons predisposed to consumption, who have used it, speak in the highest terms of its efficacy."

INTERESTING CORRESPONDENCE.

The afflicted are requested to read the following letter, received from James Rust, Jr., publisher of the Shelbyville (Tenn.) Expositor:

SHELBYVILLE, Tenn., Dec. 9, 1849.

J. D. PARK—Dear Sir: I take it as a duty I owe to the community, and particularly to the afflicted, to state what I know of Wistar's Balsam of Wild Cherry. For a number of years my wife had been afflicted, and was laboring under a disease and weakness of the lungs—coughing to such an extent that it was with great difficulty she breathed. I could find no medicine that would give any relief, until I purchased a bottle of the Balsam. This gave relief to some extent, and the fifth bottle perfected a cure. I look upon it as the best medicine ever offered to the public for the cure of these diseases of the lungs and liver. I have witnessed its effects on other families with equal success.

Yours, JAMES RUST, Jr.,
Editor Shelbyville Expositor.

IT SELDOM FAILS TO CURE.

ST. LOUIS, July 23, 1851.

MR. H. BLAKSLEY—Dear Sir: I take great pleasure in making known to you the benefit I have received from the use of DR. WISTAR'S BALSAM OF WILD CHERRY. My lungs had been seriously affected with bleeding for the last three years. At times the bleeding was profuse, so much so as to render me very apprehensive. [illegible] own bottles of "Wistar's Balsam of Wild Cherry," and from it have received every benefit my heart could desire, the medicine having effected a perfect cure, and am now in the enjoyment of sound lungs and the best health; all of which I can attribute to no other agency than the use of Wistar's Balsam.

You are at liberty to use this statement if you think proper. I have resided in St. Louis twelve years, and can be seen at my residence by any person wishing further particulars. (Signed,) WM. H. JOHNSON,

Residence, Fourteenth st., one door north Franklin Av.

CAUTION—The genuine "Wistar's Balsam of Wild Cherry," has a fac simile of the signature of HENRY WISTAR, M. D., Philadelphia, and "Sanford and Park," on a finely executed steel engraved wrapper. No other can be genuine.

BANNING'S BODY BRACES AND TRUSSES.
THE undersigned would inform the citizens of Chicago and the surrounding country, that he still keeps a good supply of these invaluable articles, for the benefit of those who are afflicted with Chronic Diseases, and need mechanical treatment.
The great benefit derived from the use of these Braces (or supporters,) has been experienced by more than 1,000 citizens of Northern Illinois, Wisconsin, and Western Michigan, which fact speaks more in their favor than anything we may say.
Mrs. Tripp will attend to the calls of the ladies. Residence 74 State street, up stairs.
All orders accompanied with the cash, will be promptly attended to. ROBINSON TRIPP.

Chicago Piano Forte Manufactory.
C. KNAUER & SON.
Piano Forte Manufacturers, 131 & 133 N. Clark St.,

THAT which was an experiment a year or two since, is now a fixed fact, the permanent establishment of a PIANO MANUFACTORY IN CHICAGO.

The experience of the advertisers in their business in Europe and in this country, have enabled them to fully demonstrate, with economy and perseverance, that Musical Instruments of the most elaborate kind, in general use, can be and has been manufactured in Chicago, which in volume, tone, finish and general perfection equals any thing brought from the East. To prove this we refer to those in this city and neighborhood who have purchased from us and now use them, all of which having given the utmost satisfaction.

That nothing may escape their attention in the way of style or improvement in their line, one of the Proprietors visited the East a few weeks since, to examine any thing new which has been adopted there, and has returned fully prepared to exhibit them to their customers and the public. They invite particular attention to the new style of Grand Square Piano.

Persons wanting Organs, Pianos, or any other Musical Instruments in their line, will find it to their advantage to call and examine our stock and prices, as we are confident that we can furnish in quality and style, as good as can be had in the East, at prices much lower than they can be brought here. PENNSYLVANIA RAILROAD.
THIS ROAD BEING NOW COMPLETE, it opens a communication between Pittsburgh and Philadelphia, or PITTSBURGH AND BALTIMORE, by which Freight from the West can reach an Eastern market quicker and cheaper than by any of the present rival routes: they connect with the
DAILY PACKETS AT PITTSBURGH,
FROM
ST. LOUIS, LOUISVILLE, CINCINNATI, WHEELING,
And all the different points on the western waters, and with the CLEVELAND AND PITTSBURGH RAILROAD, and the OHIO AND PENNSYLVANIA RAILROAD AT PITTSBURGH.
Cars run through between Pittsburgh and Philadelphia without transhipment of Freight, an advantage that can be appreciated by all shippers.
In case of obstruction of navigation by ice or low water, freights westward can be forwarded from Pittsburgh to Cincinnati, or towns in the interior by railroad.

The Vulcan Cook Stove
WE would respectfully call the attention of persons wishing to purchase a Cooking Stove, to the Vulcan. Two years of successful experiment by an appreciating public, have stamped this as the best cooking stove in use. For economy and utility, this Stove is unsurpassed. By a peculiar adaptation and arrangement of the flues, this stove will with less trouble, do the same amount of work, and in one year's time at the farthest, save more than enough over ordinary air tight Cook Stoves, in fact, to purchase a new one. To those who have seen or used this Stove, it would be supererrogation on our part to say another word in commendation. Those who have not had the good fortune to see this Stove, and are intending to purchase one, are requested to call immediately, for the demand is such that we cannot promise how long we will have a supply. Remember, this Stove is adapted to either coal or wood. WM. KENNEDY & SONS, 196 Lake st.

BEWARE OF FRAUD.
A certain Air Tight Stove has been advertised to endeavor to bolster up its waning reputation, as having received the Diploma at the late Mechanics' Fair. This is not so, the Vulcan took the Diploma and was the admired of all admirers. We have the documents and can show them. We are the only agents for Chicago. W. KENNEDY & SONS, 196 Lake st., Chicago. feb17

DURYEE & FORSYTH'S SCALES.
THE Subscribers, thankful for the very liberal patronage of the Public, take this method to announce that they have recently received from the celebrated Manufactory of Duryee & Forsyth, of Rochester, a full assortment of Scales, Sugar Mills, Copying Presses, and Warehouse Trucks, and in view of the extensive machinery they have been enabled to introduce in the manufacture of their Scales, they have made a great reduction on former prices, being determined to sell at such prices as will command the trade. All the scales manufactured at this establishment, are made under the immediate supervision of Mr. Duryee, who is a practical mechanic of long experience in the manufactory of weighing machinery, and may be relied upon as being made of the best material and of superior workmanship. The bearing edges are made of the best cast steel, well tempered, and great care taken in their adjustment. We will warrant these Scales to be accurate—to be as strong, as durable, and as well finished in every particular, as any Scale in this market, and at prices that will make it an object to those wishing a good scale to buy of us. RAYMOND, WARD & CO., Agents at Chicago.

MICH. CENTRAL RAILROAD OFFICE, Detroit, May 10, 1852.
Messrs. Duryee & Forsyth, Rochester, N. Y.
Gentlemen:—We have in use upon our Road nearly one hundred of your scales, comprising most of the sizes ordinarily in use upon Railroads, many of which have been in use four or five years.
They have kept in adjustment well, retain their sensitiveness, and we regard them as strong, accurate, reliable, and in every respect satisfactory.
Respectfully yours, J. W. BROOKS, Superintendent.

SCOVILLE & SONS'
Chicago Car Works and Steam Engine and Machine Manufactory.

THE subscribers would respectfully call the attention of Railroad Co.'s and officers in charge of Railroads in the West, to this establishment situated at the corner of Canal and Adams streets, West Chicago, where they are at present extensively engaged in the manufacture of road cars.
They have recently erected a spacious Car Shop and a Foundry, in addition to their former Steam Engine and Machine Works, expressly for building Cars, and have concluded arrangements at the East for a full supply of Ames' Car Axles, the New England Car Company's Springs, and also for the exclusive right to manufacture Washburn's celebrated Patent Car Wheels. They have also contracted for a large and constant supply of the best Michigan Lumber, and are now fully prepared to receive orders for, and manufacture Cars of every description, and in any number, and in a manner which they warrant to be equal in materials and workmanship, to any made in the United States.
The subscribers are experienced in Car Building, are all practical mechanics, superintending every branch of their business in person. Their works are extensive, and their machinery, and other facilities for manufacturing, are equal to the best at the East, and they are determined to make their prices and terms as favorable, and the style and quality of their work as satisfactory, as can be found at any similar establishment in the country.
They take the liberty of referring to J. B. Turner, President and Superintendent, and John Van Nortwick, Chief Engineer on the Galena and Chicago Union Railroad Co.
The subscribers also manufacture Steam Engines, Mill Gearing and Machinery generally, including Gates' Patent Screw Cutters, (in the patent of which they are joint proprietors with Mr. Gates,) Daniel's Wood Planing Machines, Turning Machines, Sash and Door Machines, &c. Orders for any thing in their line are respectfully solicited, and will receive prompt attention. [ja13-dly] H. H. SCOVILLE & SONS.

STATE OF NEW YORK, CANAL COMMISSIONER'S OFFICE, ALBANY June 21, 1852.
Messrs. E. & T. FAIRBANKS & Co.—Gents.—Your favor of the 10th, asking my views of the WEIGH LOCK SCALES manufactured by you, and introduced upon the Erie Canal, is duly received.
In the report of the Canal Commissioners, submitted to the Legislature 1st of January last, I took occasion to express my satisfaction with your Scales, and have since seen no reason to change my mind.
I have no hesitation in saying that they have fully answered your recommendation in every particular. Their capacity for strength is fully equal to sustain the required burthen—they are not liable to get out of order or repair—the arrangement of the Weighing Beam is admirably adapted to obtain rapid results. I know of no scale superior to them, in this or any other country.
In great haste, yours truly,
JNO. C. MATHER, Canal Commissioner.

CHILSON'S PATENT FURNACES,
FOR Thoroughly warming Dwellings, Churches, School Houses, Stores, &c. Sizes adapted to all classes of buildings.
This Furnace has received the FIRST PREMIUM MEDALS at the principal Fairs in this country, and the PRIZE MEDAL, at the World's Fair, London, and has also received the approbation and recommendation of every scientific gentleman who has examined its principles. It possesses the following advantages:
1. Great power of warming, by an abundant supply of fresh healthful, warm air.
2. Economy in fuel.
3. Desirable materials and substantial construction.
4. Simplicity of arrangement, rendering it easily understood and managed.
5. Impossibility of setting the buildings on fire in which they are located.
All sizes of the above Furnaces, for sale and put up in complete order, by RAYMOND, WARD & CO.,

IMPROVED FIRE KING SAFES.
J. M. E. DAVIDSON, MANUFACTURER, Albany N. Y.—These safes are fast coming into general use. Having been severely tested in large fires in the Eastern cities, they are what their name purports, thoroughly FIRE-PROOF. They are provided with Fair's Patent Anti-Gunpowder Locks, which have always resisted the attempts of the most expert rogues, who have, in some instances, expended hours of fruitless toil in trying to fire them.
By the following extract from the Albany Express, it will be seen that one of these Safes has endured one of the severest tests unharmed.
"Just before the fire, Classen & Son had laid in a very large stock of liquors, and had it not been for the illimitable supply of water, it would have been a total loss. Their books and papers were locked up in one of Davidson's Fire King Safes; and although subjected to the hottest of the fire, being directly under the loft where several casks of liquor were stowed, they were not scorched in the least. They were slightly moistened by liquor, the door having a little sprung by the intense heat, but aside from this they sustained no damage.—Another triumph for those Fire and Burglar-proof Safes, which cannot be surpassed in the world."
The subscribers have a full supply of the above Safes on hand. Their sales recently have been large, and all purchasers have been well pleased, as they are proof from any dampness. We sell at Mr. Davidson's lowest Albany prices, adding only transportation.

For Flags this stone is unsurpassed for beauty and durability. It is peculiarly appropriate for Garden Walks, and makes the best Floors for Cellars, Basements, Public Buildings, Halls, &c., &c. Platforms for Door Steps and other purposes, can be had 4 ft. by 8, and larger if desired. The stone is nearly of a cream or straw color. It varies in thickness from 1 to 8 inches, the general thickness being about 2 inches. The surface is straight, and nearly as level as a well sawed pine plank. These stone are from a quarry recently opened at Malone, N. Y., on the Ogdensburgh Railroad, midway between Ogdensburgh and Lake Champlain—and in Boston, are pronounced, for walks, the most beautiful Stone ever used there.
The undersigned are Agents for the sale of this Stone, and invite the public to call on them and examine it. It may also be seen on the walk in front of the Store of L. D. Olmsted & Co., Lake street. GEO. A. GIBBS & CO.

SWAIM'S
CELEBRATED PANACEA,
FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea. Some of which give the particulars of cases too frightful for general publication, where the patients had been almost eaten up with Scrofula, and were deemed incurable by Physicians.
It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by—
W. Gibson, M. D., Prof. of Surgery, Pa. University.
Valentine Mott, M. D., Prof. of Surgery, N. Y. University.
W. P. Dewees, M. D., Prof. of Mid., Pa. University.
N. Chapman, M. D., Prof. of Physic, Pa. University.
T. Parke, M. D., Presit College of Physicians, Phila.
Dr. Del Valle, Professor of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
J. Chipman, Member Royal College Surgeons, London.
G. W. Irving, late Minister to Spain.
Sir Thomas Pearson, Major General British Army.
Gilbert Robertson, British Consul, &c., &c.
And also, the wonderful cures effected by Swaim's Panacea have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.
The retail price has been reduced to $1.50 per bottle, (containing three half pints) or three bottles for $4.

Beware of Imposition.
Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—
"SWAIM'S—PANACEA—PHILADA."
and having the name of Jas. Swaim stamped on the sealing wax, and written on the label covering the cork, and a splendid engraving for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Philadelphia. In its centre is a portrait of the late Wm. Swaim, copyright secured.

Also, Swaim's Vermifuge.
A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.
Prepared only at SWAIM'S LABORATORY, THE OLD STAND, Seventh street, below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.
Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.
